CII

IIAREE 2025
5TH India Industrial Automation Robotics and Electronics Expo
EFFICIENCY, RELIABILITY AND ACCURACY

20-22 February 2025
Pragati Maidan, New Delhi

A Focus Event at

CII

26th **IETF**

26th International Engineering and Technology Fair

The world of manufacturing, production, and innovation is undergoing a profound transformation driven by technological breakthroughs. This expo serves as a platform to showcase the latest trends, innovations, and solutions that are revolutionizing industries worldwide.

CII's India Industrial Automation Robotics & Electronics Expo (IIAREE) in its 5th edition is a convergence point for industry leaders, innovators, engineers, developers, and enthusiasts from around the globe. Attendees will have the opportunity to engage with top-notch exhibitors, attend insightful seminars, participate in hands-on demonstrations, and network with peers, fostering collaboration and knowledge exchange. This biennial event is an integral part of the esteemed **26th International Engineering & Technology Fair (IETF)** organized by the **Confederation of Indian Industry (CII).**

Explore the cutting-edge advancements in Industrial Automation, Robotics, and Electronics at this expo.

Exhibition
Highlights

Innovative Robotics Solutions

Experience the future of robotics with live demonstrations showcasing robots designed to optimize manufacturing processes, enhance precision, and improve efficiency across industries.

Automation Technologies

Explore a wide array of automation technologies that streamline production, increase productivity, and reduce operational costs through automated systems and processes.

Electronics and IoT Integration

Witness the integration of electronics and the Internet of Things (IoT) in industrial applications, enabling interconnected systems for smart manufacturing and predictive maintenance.

AI and Machine Learning in Industry

Discover how artificial intelligence and machine learning algorithms are transforming industries by enabling predictive analytics, autonomous systems, and intelligent decision-making.

Industry 4.0 Solutions

Gain insights into the fourth industrial revolution and how it's reshaping traditional manufacturing through interconnectedness, data exchange, and automation.

Workshops and Seminars

Engage in informative workshops and seminars conducted by industry experts, covering topics such as cybersecurity in automation, future trends in robotics, and the impact of emerging technologies on industries.

Networking Opportunities

Connect with professionals, industry experts, and exhibitors to foster collaborations, share knowledge, and explore potential partnerships for future endeavors.

Semi Conductor Industry

CII

Confederation of Indian Industry

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, with around 9,000 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 300,000 enterprises from 286 national and regional sectoral industry bodies.

For more than 125 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

As India strategizes for the next 25 years to India@100, Indian industry must scale the competitiveness ladder to drive growth. It must also internalize the tenets of sustainability and climate action and accelerate its globalisation journey for leadership in a changing world. The role played by Indian industry will be central to the country's progress and success as a nation. CII, with the Theme for 2023-24 as 'Towards a Competitive and Sustainable India@100: Growth, Livelihood, Globalisation, Building Trust' has prioritized 6 action themes that will catalyze the journey of the country towards the vision of India@100.

With 65 offices, including 10 Centres of Excellence, in India, and 8 overseas offices in Australia, Egypt, Germany, Indonesia, Singapore, UAE, UK, and USA, as well as institutional partnerships with 350 counterpart organizations in 133 countries, CII serves as a reference point for Indian industry and the international business community.
