CII NETWORK

KEY HIGHLIGHTS

IETF 2023 AERIAL VIEW

IETF FOCUSSED SHOWS

- FACTORY & PLANT
- FLUID POWER EXPO
- AUTOMATION & ROBOTICS (IIAREE)
- LOGISTICS
- METAL & METALLURGY
- WATER & SOLID WASTE EXPO
- ADVANCE BUILDING TECHNOLOGY
- INNOVATIVE COATINGS & PAINTS EXPO
- MACHINERY & EQUIPMENT (MECTECH)

IETF CONCURRENT SHOWS

- ARTIFICIAL INTELLIGENCE
- INDIA GAMING SHOW
- HEALTH TECH

IETF is a platform for buyer seller meets, international conferences and seminars, business networking, technology assessments, strategic partnerships, vendor development and is attended by visitors from around the globe. The categories of visitors include CEOs, decision makers, technical experts, sourcing personnel, diplomats, Trade Government Delegations and media.

25th IETF 2023 - CII's Flagship Event in Its Silver Jubilee Edition

Presence of 45 countries, largest showcaseby Start Ups

The largest ever participation of over 100 Indian Start Ups, showcasing Future Technologies and Innovations at the 25th Edition of IETF 2023–International Engineering & Technology Fair–is one of the highlights for the Silver Jubilee Edition of IETF 2023.

Spread across an exhibition area of over 30000 sqmtrs at the **New Exhibition Venue**, **IETF 2023 is scheduled from 16 to 18February**, **2023 at Pragati Maidan**, **New Delhi**. The current edition of IETF, the Flagship Event of CII, held every alternate year since 1975,celebrates its **Silver Jubilee Edition** this year with active **participation of exhibitors and delegates from 45 countries**.

Finland is the Focus Country and is showcasing products and technologies related to Advanced Building Solutions, in an exclusive Pavilion. **Germany is putting up a Country Pavilion** highlighting technologies and solutions for Water & Waste Management.

IETF is a Global Platform and in the past, developed countries used this event to establish business linkages in India, by participating as **Partner Countries**, showcasing their industrial strengths and innovation capabilities. These are - Italy (two times), Canada, USA, UK, Germany, Japan (five times), South Korea (two times), Spain, China, and South Africa (two times).

IETFis a multi-sector event, and showcases future technologies and products, under a common platform. IETF 2023 will showcase the industrial strengths and innovation capabilities of India, through its **focused and concurrent shows, representing 12 industry sectors.** The select sectors are - advanced building technologies, artificial intelligence (AI), capital machinery, digital gaming, fluid power, factory & plant maintenance, healthcare, industrial automation & robotics, modern logistics solutions, metal and metallurgy, surface coating, and water & solid waste management.

Major Brands at IETF 2023 - The current edition has presence and participation of over 300 exhibitors and delegates from 45 countries, including Global Brands, representing multiple sectors.

Some of the key brands at IETF this time are, Sony Playstation, LG Electronics, One Plus, Western Digital, Acro, Riot Games, Nodwin Games, Jet Synthesys Group, Kone Elevators, Nokia, JCB, Terex, Tata Steel, JSW, JSPL, Thermax, Lloyds Steel, L&T, Blue Star, Tata Bluescope, Gates India, Tucson, Wipro FluidPower, Universal Robot, Elite Robot, Brady India, Hutchison, Logistics Skill Council, Rockwell Automation, TVS Supply Chain, C Dot, Ministry of Ayush, Wipro Water, Medika Bazar, Siemens, HNB, Ion Exchange, German Pavilion, etc.

The Indian Start Up Community with a very strong presence of over 100 companies representing a variety of sectors, offering solutions, new technologies, and innovative products for future, specially in Healthcare, Artificial Intelligence, and Water & Waste Management, is a major attraction of IETF 2023.

The IETF 2023 Inaugural Ceremony–The Honourable President of India, Smt. DroupadiMurmu, has kindly agreed to inaugurate and deliver the Presidential Address at 1100 hrson 16thFebruary, 2023 at Amphi Theatre No.1, at Pragati Maidan, New Delhi. Dr. Mahendra Nath Pandey, Minister of Heavy Industries and Public Enterprises, Government of India, is the Guest of Honour at the Inaugural Ceremony of the Silver Jubilee Edition of IETF 2023.

ADI MEDIA - COMMUNICATIONS TODAY

Stall No: A 68

C-35, Sector - 62, Noida, 201307, Uttar Pradesh,

Phone: 91-98104 22047

Email: neha.rathor@adi-media.com; circulation@adi-media.com Website: www.adi-media.com; www.communicationstoday.co.in COMMUNICATIONS TODAY

Chief Executive Name: Ms. Neha Rathor, Executive Director

Contact: Firoz Khan, Sr. Circulation Officer

Company Profile: (Founded in 1986, ADI Media is a B2B media house that addresses four broad verticals – consumer electronics and home appliances; carriers and enterprise network; medical technology, IVD and life sciences; and broadcast, cable, and satellite. Each vertical has a core print product, online products, and partnership with various industry events. We publish four B2B monthly magazines – TV Veopar Journal, Communications Today, Medical Buyer, and Broadcast and CableSat. We create rich business content, reach targeted business audiences, and provide valuable business information to our readers. The web portals for the verticals we operate in provide news, research, product information, and a variety of business information. These are popular in the communities they serve and receive millions of page views every year. All the publications can be accessed in print, on our website, are emailed to each reader and sent to him via SMS and Whatsapp. Communications Today provides a platform to build corporate image and influence purchase decisions. The magazine reaches decision makers who allocate budgets for procurement of equipment and services and identify and evaluate vendors for supplies.

Products/Technology/Services on Display: BuKu - An ERP app for MSME's

Company Profile: Our story began in 2013 in a friend's empty kitchen space at Delhi. It was here where we dreamt of solving one problem in B2B2C space about aggregating after-sales care for warrantable goods. It didn't work out well but we did not give up and rebooted ourselves several times with more determination than ever.Late 2019, we saw an opportunity in MSME space where the existing solutions were just not complete enough to deliver on various business aspects that matters to the business owner. And BuKu was born.Today, we are privileged to connect with hundreds of users every day who use our mobile app 'BuKu' to run their business.Our mission is to simplify running business of any kind, anywhere in the world and show the real-time business health on a dashboard in the easiest way possible.BuKu is a unified and vernacular accounting, billing and business management app for MSME's. Over time, BuKu has evolved into an ERP app with optional subscription based services like Inventory/Billing, Staff management, Loan/EMI, CRM, Factory assembly line and many more. We are bootstrapped and do services work to earn the burn. We are a very lean and agile company and are obsessed with our users and give highest priority to every single feedback that we get.With over 200 million SME's globally, we are determined and confident that millions of Business's will run on BuKu!!Website: https://www.softdew.co.inPlaystore: https://play.google.com/store/apps/details?id=com.softdew.buku

Products/Technology/Services on Display: Whiz NEST; Whiz WATER; Whiz WATT (prototype)

Product to be launched at the expo: Ragbee

Company Profile: Whiz Gizmo Pvt Ltd is an IoT startup dedicated for energy and agriculture sector. We are building an innovative product - Whiz WATT, for Energy Monitoring and Anomaly Detection of home appliances. It is still under development. The prototype is ready, and we refining it to make it more reliable, and accurate usig machine learning. We are also developing a smart agricultural drone - Whiz BIRD for doing survey of the agricultural field, take phoos of the leaves, and using ML, decide if they are healthy or infected with some pests / diesese. It would create a heat map of infected area, and then it can again fly with the same path and spray pesticides on the infected leaves as per heat map.

Let's create something → that changes everything.

Today, what business needs most is creativity.

So let's create AI with integrity, not bias. Security that protects your data anywhere. Automated systems that make work less work. Cloud management that requires less management. And new ways for business to do business.

Let's create. At scale. Right now. Together.

Let's get started at ibm.com/lets-create

IGBC, formed by CII in 2001, has developed a robust and unmatched infrastructure required to develop guidelines and certify green projects in the built-environment. Currently, 10,222 government and private projects, with 9.88 billion sq ft, have adopted IGBC Green Ratings from the residential, commercial, educational, healthcare, industrial, transit, infrastructure

and other sectors. The council also closely works with several State Governments, Central Government, World Green Building Council, bilateral multi-lateral agencies in promoting green building concepts in the country. CII- IGBC launched the Mission on Net Zero on 22nd April 2021 - a journey to achieve Net Zero Buildings which would include Energy, Water,

Waste and Carbon. In this context, the Hon'ble Prime Minister's recent pledge that India will achieve net zero carbon emissions by 2070 has further inspired us. Services offered includes Certifications under various IGBC Green Building Rating systems including NET ZERO buildings, Membership Services, Accredited Professional Examination \$\&\pm\$039; (IGBC AP), capacity Building programs.

EVENT SPONSORS

Blue Star is India's leading air conditioning, commercial refrigeration and MEP (Mechanical, Electrical, Plumbing and Fire-fighting) contracting company with 79 years of experience. The Company offers a plethora of cooling solutions and has also made inroads into water and air purification, engineering facilities management, commercial kitchen and healthcare refrigeration including vaccine refrigeration. The Company's integrated business model of a Manufacturer; Engineering, Procurement and Construction (EPC) services provider; and an After-sales service provider enables it to offer comprehensive solutions for the Residential, Commercial and Infrastructure segments.

Blue Star today has a network of 31 offices, 5 modern manufacturing facilities (2 new state-of-the-art facilities are coming up), and around 2723 employees. It has 3950 channel partners with over 7500 stores and 1172 service associates reaching out to customers in over 900 towns.

The Company has an expansive global footprint.

EVENT SPONSORS

Tata BlueScope Steel is an equal joint venture between Tata Steel and BlueScope Steel in the field of coated steel products & building solutions. The JV has ushered innovative, new age, quality driven steel building products and solutions within the Indian construction industry. Company operates in South Asian region. BlueScope Steel is the global leader in metal coated and color coated steel, with iconic brands under its wings and Tata Steel is one of the largest private sector manufacturers of steel in India, with more than 100-year-old legacy. Addressing the dynamic landscape within the B2B sector, Tata BlueScope Steel offers aesthetically superior, sustainable, and safe building products and solutions apart from world class construction services.

Coated Steel Business: Tata BlueScope Steel's Coated steel division manufactures 55% Al- Zn alloy metallic coated steel and pre-painted 55% Al-Zn alloy coated steel at Bara, Jamshedpur plant with level 5 automation. We manufacture and supply globally acclaimed brands ZINCALUME® steel and COLORBOND® steel for roof and wall cladding applications and manufactured articles (Solar Structure, LGFS, False ceiling tiles, water tanks body, rolling shutters, Doors/ Frames and many more). Over two decades, our products are being used in various projects in India and overseas like Metros/Railways, Airports, Warehouses, Power, Factories, defense, Commercial buildings and Residential etc.

Committed to Sustainability: As part of our ongoing efforts towards developing future-ready sustainable solutions, Tata BlueScope Steel beckoned upon undertaking assessment of the environment performance of its products based on Life Cycle Assessment (LCA). We are indeed happy to share that Tata BlueScope Steel is the first company within the steel sector to have received the Environmental Product Declaration (EPD) for its colour coated coil brands COLORBOND® steel and ZINCALUME® steel. We are also the first company to have received the GRIHA (Green Rating for Integrated Habitat Assessment) certification, for products in Industrial & Infrastructure steel building cladding applications; largely recognized by the Government Bodies and MNRE as national rating system. By Virtue of this certification, now you can attain additional credit points in green buildings assessment.

everest STEEL BUILDINGS

Everest is a pioneer in Building Solutions Industry. With a rich legacy of over 8 decades, the company today provides integrated building solutions such as Pre-Engineered Buildings, Roofing and, Boards & Panels.

Everest Pre-engineered Buildings are custom-made solutions suited for both industrial and commercial operations. Our complete solutions include Design, Manufacturing and Erection of complex buildings with applications such as Factory Buildings, Warehouses, Process Buildings, Logistics Centers, Food & Beverage facilities, Shipyards, Exhibition Centers, Schools & Colleges, Showrooms and Multi-storied Buildings, etc.

Everest uses advanced and innovative technologies for economical designs and faster construction. Our transparent and process driven approach is designed to always keep the customer within the loop. From structural design to erection, Everest's customized ERP runs on SAP HANA platform that enables the customer to track the status of the project at any point of time. Our highly experienced engineering team works on World Class Software to provide the most optimum and robust designs to the customers.

The Everest Edge

Everest has two state-of-the-art Pre-Engineered Building plants strategically located atRoorkee in Uttarakhand and Dahej in Gujarat spread over an area of 1,00,000 sq. m to cater toall parts of India.

Bhagwanpur Works, Roorkee, Uttarakhand -Production Capacity: 36,000 MT

Narmada Works, Dahej, Gujarat - Production Capacity: 36,000 MT

Trusted by customers since 1934, Everest is the only Public Ltd company in the industrythat is completely transparent with revenue over and above 1400 Cr

Everest provides Turnkey Solutions to customers right from design to manufacturing and supply to erection

Engineering excellence of highly qualified design & detailing team of over 120 engineerslocated at 2 design offices in Navi Mumbai & Roorkee

World-class design & engineering software such as MBS, STAAD.Pro CONNECT Edition, GstarCAD, Tekla & RAM Connection

Everest buildings are designed to meet every stringent local and international code like IS,AISC, AISI, MBMA, and AWS as per client requirements.

Everest is an ISO 9001:2015, ISO 14001: 2015 and ISO 45001: 2018 Certified Company

Technically strong sales team present in over 15 offices across India

In-house Project Management team and Certified Erector Network of over 60 Erectors &Builders

Everest promises Strength, Speed and Safety which makes Everest a trusted partner for the construction of Complex and Modern Pre-Engineered Buildings.

ASSOCIATE SPONSORS

K2 Cranes & Components Pvt Ltd., Chennai was established in the year 2008 with the vision to be a "World Class Crane manufacturer with Top Class Support". It has now been the "Largest EOT Crane Builder in SOUTH INDIA" for the last few years already! We have been manufacturing cranes for the last 14+ years now with our installations crossing 2500 across PAN India – for 900+ customers in numerous industry sectors. We have established ourselves as a trusted lifting partner in the industry. We also regularly export to USA, UK, Ghana, Kenya, Nigeria, Saudi Arabia, Qatar, Srilanka etc.!

Why are we what we are today?

Our **vast range of standard & customized products** is spread across various crane types & supporting equipment (EOTs, semi-gantry, full-gantry cranes, jib cranes, transfer cars, chain & rope hoists, light rail systems, columns, gantry beams etc.) required for material handling operations.

The **expansive range of industries**we cater to, is also very wide – from plastic injection mould to paper to wind mill blade to earthmoving to general engineering to auto & auto components to FMCG, rubber etc..

The **impressive customer list** showcases many top class MNCs & large Indian companies like Minda group, Motherson, L&T, GMR, Caterpillar, Ashok Leyland, M&M, Vestas, Vasantha Tools etc. and also several medium, small & even micro enterprises. Our retention as a repeat supplier is extremely high!

We also partner Demag range of components (part of Konecranes & Demag Pvt. Ltd.) for their advanced chain & rope hoists in many of our cranes. This is in addition to our in-house developed range of hoists – MyHoist, which is also an established brand.

A very competitive team, one of the best crane-manufacturing set-ups, focus on nurturing relationships, extensive service network (even for non-K2 cranes!), a very low total cost of ownership driven by the enthusiastic hands-on promoters & the customers' +ve appreciation has helped us achieve the current status of being **one of the top players on a pan-India basis**!

We are ISO 9001 & also CE certified.

Our world class facility in Chennai can produce up to 2 Cranes/day spread over 3+ acres of land &60000sq. ft. built-up area with completely integrated infrastructure to design & manufacture Cranes upto 300Tons! We hadrecently added a unique facility with CNC Machines to produce End Carriages & Crane Components.

200+ K2ians with wide experience, knowledge & skill ensure our customers' needs are met each time they choose K2 as their Lifting Partner – ably backed up with quick & efficient post sales service!

DRIVEN BY POSSIBILITY

Gates Corporation is a leading manufacturer of application-specific fluid power and power transmission solutions. At Gates, we are driven to push the boundaries of materials science to engineer products that continually exceed expectations.

About Gates India

For over 20 years, Gates India has a leading presence in fluid power and power transmission solutions. As a part of Gates Corporation, we are driven to push the boundaries of materials science to engineer products that continually exceed expectations. With a team of more than 1500 employees, four world class manufacturing facilities, two corporate offices and countrywide network of +280 Distributors, we are constantly expanding our product catalogue and value-added service offerings to support every facet of our customers' operations. In the most extreme environments and those more familiar, Gates is there with the right product, in the right place at the right time. Whether building original equipment or maintaining products in the aftermarket, Gates India enables companies in every industry to be more efficient, productive, and profitable.

Wipro Infrastructure Engineering

Wipro Infrastructure Engineering (WIN) is a global hydraulic solutions provider with expertise spanning over 4 decades of engineering and manufacturing excellence in helping customers meet their hydraulic solution needs. WIN specializes in designing and manufacturing custom built Hydraulic Cylinders for applications in diverse segments of Construction & Earthmoving, Material & Cargo Handling, Forestry, Farm & Agriculture, Mining and Truck Tipping.

Today, it is a diversified business in Aerospace, Water Treatment, Additive Manufacturing and Automation Solutions, in addition to its Hydraulics business.

Our deep engineering expertise coupled with scalable manufacturing, capacity to innovate and relentless focus on quality has made us a leading hydraulic solution provider to global OEMs. Cross continental geographic presence with 11 state-of-the-art manufacturing facilities spread across India, Europe, USA and Brazil places us amongst the largest independent hydraulic cylinder manufacturers in the world.

ASSOCIATE-SPONSORS

Established Indorub Industries in 1985 at Gurgaon, Haryana, India with their vision to develop high quality rubber products, being focused on giving competition to international brands in India and developing new products and technologies in house.

Indo-Maksson, a brand depicting quality has today become a well established name in the Indian Market with its reflective footsteps into the Global Market.

Indorub Industries finds its expression in embracing innovation, through cutting-edge technology, new-wave leadership, advanced R&D facilities, product excellence and rigid quality control, for which we are world renown.

A progressive organization with a successful history in the manufacturing of industrial and hydraulic rubber hoses, on a very large scale, we stand poised at the brink of an explosive growth projection. At Indorub, we strive to give the consumer a world class product that has superior performance and we have in place and in operation equipment, process, systems that are amongst the finest in this part of the world. We are confident that you will agree that having all of these are vital components, essential towards the production of a world-class product.

With Manufacturing and application expertise of complete range of high pressure hydraulic hoses, Industrial hoses and assemblies our product profile consists of water delivery, suction, car-washing, welding, air, pneumatic, hot water, steam sand blast, cement grouting, brewery and food grade, carbon free/heat resistant, petrol dispensing, oil suction/discharge, LPG, CNG, chemical hose and special purpose hoses.

ASSOCIATE-SPONSORS

Suvera Fluid Power Private Limited is a dynamic and innovative company dealing in fluid power systems. At the heart of our operations is a team of dedicated engineers which is passionate about its craft and involved in every step of engineering, to apply innovative engineering to solve any problem for our clients. This no-nonsense attitude, along with a high on-time completion, competitive cost structure, and 100% customer satisfaction, has contributed in making us a trust-worthy partner in many high-profile projects all over the world.

We have over 40 years of experience in the field of fluid engineering, having designed, manufactured and supplied Hydraulic cylinders, Hydraulic systems, Hydraulic equipment and Hydraulic hoists for dam gate/ hydro power projects to some well-known companies in the spheres of Water management, Industrial, material handling, marine applications. We also design and manufacture complete solutions for Material Handling equipment like Crushers, Boom Luffing Bucket Wheelers, Dredgers, Aluminum Extrusion Machines & Plants, Automatic Cotton Bailing Press, Scrap Bailing Press and Spiral Duct machines.

We manufacture a wide range of products, from simple power packs to complex Test rigs, Presses and Cylinders with stringent tolerances. Cylinders, both single and double action with pressure levels varying from 100 - 450 BAR and bores from 25mm to 1000mm are manufactured using high strength St52/ Cold drawn seamless steel tubes, stainless steel piston rods with ceramic coating, with the maximum stroke length being 20 meters.

Our Powerpacks are made using international hydraulic components and fittings, and are treated for corrosion protection with phosphate, enamel painting, powder coating, polyurethane painting etc., in strict accordance with specifications to enhance product durability and finish.

We strive to minimize manufacturing time and cost through standardized designs, innovative solutions, effective management techniques and manufacturing facilities like Horizontal Honing machines with the latest technologies like servo expansion and servo controlled reciprocation which ensure excellent surface finish.

Suvera has emerged as one of the major manufacturers of Hydraulic Hoists for Hydel power projects, Radial Gates, Sluice Gates and undertake complete projects on turnkey basis, i.e. design, manufacture, supply, erection and commissioning of hydraulic hoists, along with required systems & control panels.

No challenge is too big for us. In fact, we love engineering challenges that bring out the best in us, leading to some great projects that stand testimony for our expertise for times to come.

Drop in a mail at info@suvera.co.in for more details, or visit www.suvera.co.in.

PARKER HANNIFIN CORPORATION: THE GLOBAL LEADER

Parker Hannifin is a Fortune 250 global leader in motion and control technologies. For 100 years the company has engineered the success of its customers in a wide range of diversified industrial and aerospace markets.

Parker's engineering expertise and broad range of core technologies like electromechanical, hydraulic and pneumatic with a full complement of fluid handling, filtration, sealing and shielding, climate control, process control and aerospace technologies uniquely positions the company to help solve the world's greatest engineering challenges.

The company partners with its customers to increase their productivity and profitability. With focus primarily on business opportunities in the areas of energy, water, agriculture, environment,

defense, life sciences, infrastructure and transportation, Parker has been consistently increasing its presence in these sectors.

Parker Hannifin with \$15.9 Billion in revenue have over 900,000 Products sold to more than 527,000 customers. Parker employs approximately 55,000 people and operates in 45 countries serving 1,100 Markets. Traded on the New York Stock Exchange under the symbol Parker is strategically diversified, value-driven and well positioned for global growth as the industry consolidator and supplier of choice. Parker's Win Strategy focuses employees on financial performance, customer service and profitable growth, ensuring our company's continued success.

PARKER HANNIFIN INDIA

Parker in India is headquartered in Navi Mumbai since 1993, has strong footprint with 7 manufacturing units in Navi Mumbai, Chennai, Nagpur, Hyderabad, Bangalore and now with Lords acquisition in Nasik producing quality products from its electromechanical, hydraulic, pneumatic, fluid handling, filtration, sealing & shielding, climate control, process control technologies and Elastomer Adhesives and Coating Solutions.

Parker India with regional sales offices in all metro cities and network of over 200 distributors, 90 Parker Stores serving customers from Construction, Transportation, Mining, Defense, Agriculture, Material Handling, Marine, Rail, Power Generation, Oil & Gas, Industrial markets.

BOSS HYDRAULICS (FORMERLY KNOWN AS S.S. HYDRAULICS) IS AN ISO 9001:2015 CERTIFIED COMPANY.WE PRODUCE HYDRAULIC GEAR PUMPS WITH ALUMINIUM EXTRUSION HOUSING, HYDRAULIC MINI POWER PACKS (AC,DC) AND ALUMINIUM MANIFOLD UNDER THE BRAND NAME OF BOSS SINCE THE YEAR2000..

BOSS HYDRAULICS - HAS CUSTOMERS ACROSS THE GLOBE, BOSS HYDRAULICS HAVING STATE OF THE ART MANUFACTURING FACILITIES, INCORPORATES THE LARGEST PROCESS TECHNOLOGIES IN THE WORLD.IT IS ABLE TO MEET VARIED CUSTOMER NEEDS WITH RANGE OF OVER 100 DIFFERENT TYPES OF HYDRAULIC PUMPS WITH DISPLACEMENT RANGING FROM 0.8 CC TO 67 CC WITH MAXIMUM PRESSURE OF 250 BAR.

BOSS HYDRAULICS ALSO HAVING DISTRIBUTION DIVISION OF HYDRAULIC PARTS LIKE HYDRAULIC MOTORS, HYDRAULICS STEERING UNITS, HYDRAULIC CONTROL VALVES WHICH ARE IMPORTED FROM ACROSS THE GLOBE AND DISTRIBUTING IN INDIA UNDER THE BRAND OF MERBOK BOSS HYDRAULICS EXPORTS UNDER THE BRAND OF MERBOK TO MORE THAN 23 COUNTRIES, INCLUDING USA, RUSSIA, UK, ITALY, FRANCE, POLAND, BELARUS, ROMANIA, SLOVAKIA, SLOVENIA, FRANCE, EGYPT, UAE, MALAYSIA, VIETNAM ETC....

CORPORATE CONTRIBUTORS

Simerics develops, markets, and supports CAE software for the virtual simulation and testing of fluid pumps, valves, compressors, motors, and systems. Simerics is focused on providing tools that allow manufacturers to reduce expensive hardware testing and provide unique insight into their products.

Simerics offers two state-of-the art CAE tools: Simerics-MP and Simerics-MP+. Simerics-MP is for multi-purpose applications and Simerics-MP+ includes all the capabilities of Simerics-MP with additional features such as streamlined setup procedures, automated mesh/re-mesh for key components especially moving components, and customized data reduction.

Simerics can handle complex geometries and moving mesh quite efficiently with its proprietary Binary-tree meshing algorithm and simulates cavitation/aeration, multiphase flow and heat transfer accurately with its robust and reliable solver.

Major fluid power equipment manufacturers utilize our software to design and improve the performance of centrifugal pumps, vane pumps, gear pumps, piston pumps, crescent pumps, screw compressors, scroll compressors and so on. The Automotive OEMs and component manufacturers use our simulation software for their engines, transmission, battery, electric motors, fuel cells, and hydrogen engine development. We also cater to the Marine industry for Hull optimization, propellers, and waterjets.

We have our headquarter in Seattle USA and offices in Germany and India along with distributor network in Italy, UK and Asia-Pacific. The Simerics team is comprised of scientists and engineers who have been among the pioneers in the development and application of multipurpose computational physics since the early 1980's. This knowledge and experiences are combined with advances in computational physics, computational geometry and software engineering to provide the next generation simulation tools to our customers.

Organisation Profile: Chandra Pumps Pvt. Ltd., a leading name in manufacturing of "CHANDRA" make Vertical Turbine Pumps. Chandra Pumps offers high quality products and services to clients in all over India. Established in 1968, today "CHANDRA" is serving in the vital fields of national interest. Chandra Pumps have wide application in the field of agriculture and drinking water supply etc. Economical and low maintenance operation make these pumps ideal for irrigation purposes. These pumps are adaptable for municipal use to meet thousands of primary water wells. These pumps also have varied type of demand and needs for supply of water to all Industrial Units small, medium, large or giant Industrial companies. Central Government is giving priority to provide fresh drinking water for all rural and urban areas. State Governments are giving priority to agricultural and irrigation sectors. Chandra Pumps incorporate a great combination of young talents and experienced professionals in field of Engineering in order to achieve the 100 % quality assured product. Engineers and Marketing professionals do analysis in their respective fields and actively participate in Research and Development to provide the company a continuous push towards its Vision. A Process based Approach, step wise regular Quality Checks, Testing as per Indian Standards, Final Inspection of Finished Goods under the supervision of Quality Engineer, Engineering Head and Inspecting Officer from Govt. Dept.. make Chandra product, a benchmark of trust. Team in Chandra Pumps possesses vast experience of Designing, Developing, Manufacturing, Installing and Running thousands of V. T. pumps all across India, exploring their experience of more than 50 years in Pump Manufacturing Industry. Chandra Pumps Meerut facility is equipped with two High Tech Testing Laboratories to test the performance of the Finished Good to meet the required specifications and parameters using Digital Panels with Latest Technological Procedures and Standard Methods under well qualified and experienced Technical Team.

Today, it is a diversified business in Aerospace, Water Treatment, Additive Manufacturing and Automation Solutions, in addition to its Hydraulics business.

Products & Services On Display: A range of products including Cylinders and Tipping systems, tilt sensor, seal kits

25% MORE FORCE-TO-BEND 20% LIGHTER 5% MORE 25X ABRAISION RESISTANCE

MXG 5K offers wire spiral performance in a flexible, lightweight, innovative, high-pressure hydraulic hose using Gates patented Xpiral™ woven spiral technology - a breakthrough construction that exceeds all industry standards and most published competitive hose performance in terms of both pressure and impulse life.

MXG 5K lasts longer in the factory or field, including applications in the most extreme conditions.

FEATURES + BENEFITS

- Exceeds performance criteria of ISO 18752 350DC, SAE 100R13, EN856 R13, and ISO 3862 R13; sizes -10, -12 also rated for EN856 4SP
- 1,000,000 cycle impulse life exceeds industry standards for longevity in the factory or field
- Utilizes Gates GS GlobalSpiral™ couplings; compatible with Gates Crimpers

Products/Technology/Services on Display: Fresh Air Machine; AQI Monitors; VAYU

Company Profile: Airth envisions a society where each and every individual is safe and protected from air pollution and disease transmission via air. We are a research based startup from IIT and we are driven by continuous research and development to bring sustainable and affordable air purification solution for all. Air we breathe today affects later in our lives. This is the main reason why air pollution remains the most neglected health hazard. Airth aspires to sensitize people and bring solutions which protects each and every individual in the society and country at large. Normal air filters supports microbial growth and becomes a breeding ground for germs. AiRTHantimicrobial air purification technology with air filters coated with plant-based biopolymers deactivates the captured germs/viruses in real-time. The proprietary technology has been developed in collaboration with IIT Bombay, IIT Kanpur and IISc Bangalore and successfully validated to deactivate real coronavirus by 99.9% in one minute at CSIR-NPL.

WHERE TECHNOLOGY MEETS FUTURE

www.ietfindia.in

IETF Concurrent Shows

India is on the road to becoming a gaming superpower. There are over 400 gaming organisations in India, which is the home to around 420 million online gamers. The gaming industry at present registers a growth rate of 38%. By the year 2025, the gaming industry in India is anticipated to reach \$3.9 billion in value. Within the year 2023, the gamers are expected to be more than 450 million in numbers. India is second only to China in terms of the number of online gamers. The lockdown due to Covid-19 pandemic further witnessed an increase in the number of online gamers and online gaming in India, with games installed at 7.3 billion in the year 2020, which was the highest in the world.

EVENT SPONSOR

We are JetSynthesys. We are India. We are bridging the world, together with you. JetSynthesys was formed with the driving purpose to enrich the lives of all Indians. We know the terrain well and are shaping the Indian culture and consumers. We passionately keep our finger on the pulse of the shifting trends and the needs of the Indian people as well as the western world. We take pride in being agile and strategic, helping to generate and provide support structures for these different worlds to connect. And we do this all in the name of sharing and cultivating culture to reveal rewards for everyone.

Our Mission & Vision

We are here to help build a connected India by developing and bringing world-class products and technology to the billion+ users that are coming online and empowering their daily lives. We aim to reach every household member in India with content and products that are curated responsibly and resonate with the aspirational needs of its consumers.

OUR JOURNEY

JetSynthesys is a part of the JetLine group whose roots go back to the 1930's in Bangkok, Thailand where the group continues to have its diversified business operations in packaging manufacturing and textile. The group has recently made significant investments and is building businesses in powering varied consumer-facing digital platforms, products and services with a deepened technology focus on digital marketing and data analytics through its group company JetSynthesys with operations in India, MENA, SE Asia and USA.JetSynthesys' primary focus is on IT services, digital media and new ventures in innovative entertainment and organized consumer retail.

Our solution to supporting brands creatively comes to life and is powered by our suite of technical development (we love code!), our incubator programs, and our vast resources with some of the best in class creative production/development companies around. Making sure your great offering becomes ready for prime time.

DIAMOND SPONSOR

OnePlus is a global technology company established in 2013 with the bold yet simple idea of delivering the best, fast and smooth technology to consumers. Centered around the "Never Settle" mantra, the company creates exquisitely designed devices with premium build quality and high-performance hardware to deliver on its vision of being a user-first technology company.

Over the years, OnePlus has grown to become a leading premium smartphone player globally, as well as in India, by offering premium flagship technology with burdenless user experience to its community. And the brand has experienced remarkable growth through the launches of series of flagship devices.

The brand also went on to diversify its product portfolio by introducing a range of products offering the signature OnePlus experience at even more accessible price points. With this vision, OnePlus ventured into launching the Nord smartphones, as well as diversifying into smart TVs and wearables segment too, while continuing to offer its premium and ultra-premium flagship smartphones.

As a community-centric brand, OnePlus has always focused on deeply engaging with its community from the very initial stages of product development, thereby making them an integral part of its journey over the years. The brand also launched the Red Cable Club (RCC), a unique platform offering exclusive rewards and benefits to its community. OnePlus currently has over 15 million community members across India.

GOLD SPONSORS

Riot Games was founded in 2006 to develop, publish, and support the most player-focused games in the world. In 2009, we released our debut title, League of Legends, to worldwide acclaim. League has gone on to be the most-played PC game in the world and a key driver of the explosive growth of esports.

With League in its second decade, we're continuing to evolve the game while delivering new experiences to players with Teamfight Tactics, Legends of Runeterra, VALORANT, League of Legends: Wild Rift, and multiple work-in-progress titles. In addition, Riot Forge gives developers access to Riot's IP to create games like Ruined King and plenty of other adventures across Runeterra. We're also expanding the world of Runeterra through multimedia projects across music, comic books, board games, and Arcane, our Emmy Award-winning animated series.

The annual League of Legends World Championship features qualified esports teams from 12 international leagues. Worlds is the most widely viewed and followed esport tournament, and it's among the largest and most popular gaming and sporting events in the world.

Founded by Brandon Beck and Marc Merrill, and led by CEO Nicolo Laurent, Riot is headquartered in Los Angeles, California, and has 4,500+ Rioters in 20+ offices worldwide. Riot has been certified as a Great Place to Work for three years in a row and featured on numerous lists including Fortune's "100 Best Companies to Work For," "25 Best Companies to Work in Technology," "100 Best Workplaces for Millennials," and "50 Best Workplaces for Flexibility."

IGS ESPORTS PARTNER

NODWIN Gaming is one of the world's leading esports companies, which is building a sustainable framework of professional gamers, content creators, organizations, and audiences. NODWIN Gaming works on esports entertainment as the core value offering to Fans, Publishers, and brands across its various IPs. NODWIN operates businesses across Media, Influencers, Tournament IPs, Brand Solutions and Merchandising.

ASSOCIATE SPONSOR

A Place where Passion meets Gaming:

From creating content to watching exciting gameplays and cheering for their favourite streamers - we are the place where gaming fans love to hang out. Today, our product speaks for itself:

Game Changer of the Year - Video Streaming: SPOTT Awards 2022.

An Integrated Platform for Gaming Content Consumption & Creation:

We could talk about how intuitive and personalized our UI is or how interactive our UX experience is. But we'd rather you ask our 1.2 million and growing daily creators and the millions of fans who watch thousands of hours of fun content on the app every day, about their experience

ACCESSORIES PARTNER

ACRO Engineering Company (AEC) is a part of the 40 year old SMC Group and was established in 1981 as a manufacturing company for various products ranging from automotive parts to industrial packaging. With the turn of the new century we decided to redefine ourselves and the business we were in. In the early 2000s, the product list was curtailed to focus on a select few, keeping in view the long term perspective. With the advent of the next generation in business AEC decided to enter in to distribution of technology products and services on a pan-India based operation.

Over the past 3 decades we have established ourselves as a trusted company. Today AEC has 3 strategic business units – Technology Products and Services, Energy Efficient Products and Solutions and Rechargeable Batteries and Chargers. With new ideology, aspiration and hope we endeavor to soar and reach for the limitless and infinite opportunities in this industry.

ACRO Engineering Company (AEC) has 13 Branches pan India, of which we have at least one in every region in India, including north, south, east and west and these are supported by a channel of over 300 ACRO Channel Partners, which gives us a presence in almost every city and town in India.

Over the years, the company has expanded globally due to its outstanding marketing strategy and visionary leadership.

TVS SCS is among India's largest and fastest growing integrated supply chain solutions provider. It is an India based multinational company and part of the TVS Mobility Group, which

has four business verticals: (i) supply chain solutions; (ii) manufacturing; (iii) auto dealership; and (iv) aftermarket sales and service. For the last 15 years, TVS SCS has managed large and complex supply chains across multiple industries in India and select global markets through customized tech-enabled solutions.

TVS SCS has presence in 25 countries including India, United Kingdom, Spain, Germany, Australia, and Singapore with more than 17000 employees. Its customers span across numerous industries such as automotive, industrial, consumer, tech and tech infra, rail and utilities, and healthcare.

In India, it has wide warehousing network and managing 19 Mn Sq. Ft. space. TVS SCS provides specialized solutions to reduce complexity in customer's supply chains by using technology, data analytics and execution experience to offer key solutions such as accurate demand forecasting, inventory planning and production, procurement management, network optimization, visibility, and supply chain agility to handle evolving needs.

Its digital platforms are largely cloud based, powered by a micro service-based architecture and are highly scalable and reliable. This enables TVS SCS to implement innovative solutions across multiple geographies in a relatively short time and deploy an innovative solution developed for one industry and apply it to other industries to enhance the value

GOLD SUPPORTER

Locus is a leading-edge technology company solving one of the most challenging global supply chain problems: last mile logistics. Locus' order-to-delivery dispatch management platform helps enterprises transform their last mile logistics operations into growth centers through advanced optimization algorithms and intuitive workflow automation that equip businesses with the tools needed to maximize efficiency while delighting customers.

Founded in 2015 and backed by GIC Singapore, Qualcomm Ventures, Tiger Global, and Falcon Edge, Locus has helped a wide range of customers globally across industries—including Unilever, Nestle, Bukalapak, The Tata Group, BlueDart, and more—execute 850 million deliveries across 30+ countries across North America, Europe, Southeast Asia, the Middle East, ANZ, and the Indian subcontinent. Its technology has also helped save \$200 million in transit costs, offsetting 18 million tonnes in CO2 emissions while maintaining a 99.5% SLA adherence ratio.

Locus brings real-world decision-making capabilities to dispatch managers by accounting for over 180 constraints, including route restrictions, hours of service, cost, choice & availability of carriers, & more. The platform can help make every delivery more efficient than the last, which results in fewer miles traveled, and more deliveries being done in a day. As a result, the platform also equips workforces for excellence and enables companies to scale with lower emissions and bring sustainable growth.

Locus platform spans across order, carrier, contract, dispatch & driver management, providing enterprises with a rich ecosystem for all their needs under a single roof while also being modular to cater to more specific gaps that need to be solved for, alongside existing business systems.

Enterprises, whether they are e-commerce companies, retail brands, 3PLs or home services, can gain unparalleled visibility of order fulfillment across channels with the platform. It allows them to scale with new functionalities in no time by onboarding modules as and when required, drastically reducing the deployment time of new, API-ready solutions on the ground. The platform acts as a single source of truth, with its various solutions constantly communicating with each other. This makes the flow of information, right from planning to execution, seamless for better decision-making.

ABOUT SUMADHURA LOGISTICS PARK

Sumadhura Logistics Park at Chintamani – Hoskote road in East Bangalore is Sumadhura's first foray into the Logistics and Warehousing Industry. Close to 2.5 million sq ft of Warehouse/Industrial space will be built in approximately 100 acres of land. This state of the art facility will have everything best that a warehousing/industrial tenant desires – Accessibility, Security, Grade A+ Specifications, Amenities and Sustainable features.

Hoskote and East Bangalore has witnessed tremendous demand for warehousing spaces in the recent past. Sensing the opportunity, Sumadhura is planning to come up with total 500 acres of warehousing and industrial parks in next few years.

ABOUT SUMADHURA GROUP

Sumadhura Infracon Pvt. Ltd. is one of the prominent residential and commercial real estate developers in Bangalore & Hyderabad. One of the most admired and trusted brands, Sumadhura has been growing from strength to strength over the past three decades marking its presence over the skylines of Bengaluru and Hyderabad. Sumadhura so far has delivered over 8 million sq ft of projects while approximately 20 million sq ft of projects are under various stages of implementation.

From being prominently a residential developer, Sumadhura has expanded its horizons into Commercial, Logistics/ Warehousing, Coliving, Plotted Development and other real estate verticals.

SILVER SUPPORTER

Hutchison Ports Sohar is a joint venture between Hutchison Ports, Rakiza (Oman Infrastructure Investment Management) and other Omani investors.

Hutchison Ports Sohar lies in the Arabian triangle of economic growth – an area encompassing the regional powerhouses of Abu Dhabi, Dubai and Sohar. Equally important is its proximity to the hinterland of this Arabian triangle, as well as the Batinah region of northern Oman, where industrial and economic investment is currently at record highs.

A word-class network of modern highways ensures seamless connectivity and efficient movement of cargo from Sohar to Muscat (200km) Dubai (160km) and Abu Dhabi (180km). Hutchison Port Sohar's location outside the Strait of Hormuz also saves carriers the higher insurance premiums applied to shipping inside Gulf waters, thereby reducing overall freight costs.

Equipped to handle the latest generation of mega-vessels, the terminal offers mainline carriers a safe, ultra-modern and efficient transshipment alternative to existing ports in the region. Furthermore, its proven track record in efficient container movement and vessel turnaround has strengthened its reputation as the port of choice among the world's top shipping lines.

SILVER SUPPORTER

Nomadia is a leading provider of innovative geospatial and smart mobility solutions and services. The company has a long-standing reputation for delivering cutting-edge technology and expertise to organizations across a range of industries. Nomadia has been recognized in the Gartner Magic Quadrant multiple times in the Vehicle Routing and Field Service Management categories.

At Nomadia, we are driven by a passion for geography and the role it plays in shaping our world. Our team of experienced geospatial specialists, developers, and consultants works closely with clients to provide custom solutions that meet their unique needs and goals. Whether you are looking to optimize your field operations, streamline your supply chain, or make more informed decisions, Nomadia has the expertise to help.

One of the key areas of focus for Nomadia is field operations optimization. Our solutions help organizations to maximize efficiency and productivity in the field, providing real-time information and insights that allow for informed decision making on the ground. From asset tracking and management to route optimization and dispatch, Nomadia has the tools and expertise to help organizations get the most out of their field operations.

Another key area of expertise for Nomadia is supply chain optimization. Our solutions help organizations to streamline their supply chains, reducing costs, improving performance, and increasing competitiveness. Whether you are looking to optimize your delivery routes, manage your inventory, or gain visibility into your supply chain operations, Nomadia has the tools and expertise to help.

In addition to our core product offerings, Nomadia also provides a range of professional services, including consulting, training, and support. Our team of experts works closely with clients to ensure that they get the most out of their solutions, and that their geospatial technology investment delivers real value.

Nomadia is headquartered in France and has offices in India for APAC, Switzerland, and Italy and has a presence in NA, and SA partnerships. Nomadia serves 2,200 customers in 28 countries, 1,77,000 users in the field.

Our clients include giants like Dominos, Writer Corporation, Renault, ID Fresh, and many others.

At Nomadia, we are committed to delivering excellence in everything we do. Our focus on innovation, expertise, and customer service has earned us a reputation as a leading provider of geospatial solutions and services. Whether you are a small business or a large enterprise, Nomadia has the tools and expertise to help you achieve your goals and succeed in an increasingly competitive and complex world.

Products and Services offered:

- 1. TourSolver Route Optimization
- 2. Territory Manager Sales Territory Management
- 3. Opti-Time Field Service Management
- 4. GC Essentials Geomarketing
- 5. Data Solutions Census Area and Pincode Boundaries Maps with POI Data

In conclusion, Nomadia is a dynamic and forward-thinking company that is dedicated to helping organizations leverage the power of geography and geospatial technology to make more informed decisions, streamline their operations, and achieve their goals. Whether you are looking for a solution that can help you optimize your field operations, streamline your supply chain, or make more informed decisions, Nomadia is here to help.

WHO WE ARE

Pragati is one of the fastest growing industrial and logistics Parks developers in India. With 12 million sft of space built till date and 2 million sft AUM, Pragati is currently in expansion mode to becoming a Pan-India Grade A Warehouse Developer. These parks are strategically located in major industrial & warehousing hubs of their respective geographies and planned with excellent connectivity options and best of amenities and facilities. With the use of technology and processes in an integrated manner our integrated service is driven by customer-centricity, active asset management & park management giving shape to solutions and spaces that are truly best in class.

OUR JOURNEY

Established in 2009, we have more than a decade of experience in the industry. With 12 million sq. ft. of Grade A warehouse space developed till date, 800 acres of land at various stages of development in more than 8 cities across, we are one of India's leading warehousing companies.

VISION

We plan to add 10-15 million sq. ft. of projects in the next 3 years. Our team aims to build logistics infrastructure for the new economy and create the backbone of 21st-century commerce.

LEADERS

Col. Jitender Yadav, Founder

An ex-army man with excellent knowledge and expertise in Business Development, Investor Relation Management, Land Evaluation, Consolidation, Compliance & Leasing. After taking voluntary retirement in 2010, Lt. Col. Jitender has gathered extensive experience in the warehouse development industry. His notable actions include the development of the first Built-to-Suit warehouse in Delhi NCR, for Blue Dart/ DHL in 2010. Since our first project, we have grown immensely having delivered 6 million sq. ft. of logistics space under his leadership.

Ranganathan Jagannathan, Chief Executive Officer

A highly experienced professional carrying over his more than a decade-long expertise with the likes of Reliance Industries and GMR Group to Pragati. His leadership and motives emphasize long-term goals, growth, and profit. Major corporate decisions and overall strategies are managed by him to ensure productivity and fruitful results.

CLIENTS

We have experience working with a wide range of industry verticals and a diverse clientele. Some of our partners in success are -

Amazon, Flipkart, Bosch, All Cargo, Stellar, Eco Express, DHL, Integrated Services Pct. Ltd, Daikin, Mahindra Logistics, Blue Dart, Myntra, Cadbury and many more.

CORPORATE SPONSOR

ESTD. 1929 Indian National Shipowner's Association

Organisation Profile: The Indian National Shipowners' Association (INSA) was incorporated on December 2nd, 1929. At the time of inception, INSA was known as "Indian National Steamship Owners' Association". INSA was formed by the representatives of Indian Shipowners to deal with the problems affecting the growth and development of Indian Mercantile Marine, eversince the first Indian vessel, s.s.Loyalty sailed from the Indian shores then a decade ago on 5th April 1919. INSA owes its origin to the endeavors of Walchand Hirachand the then Chairman of the Scindia Steam Navigation Company Limited and M. A. Master, General Manager of the company. Walchand Hirachand was the first President of INSA and held this position for 19 consecutive years. At the time of formation of INSA there were seven company members and four individual members, amounting to a total gross registered tonnage of 84,000 tonnes. After independence INSA attained a new importance with the Government of India recognizing it as the representative body of Indian shipowners, and giving it due representation on official and public bodies connected with merchant shipping. On 10th September 1979, INSA was registered as a non-profit making company under sec. 25 of the Companies Act, 1956. Today, INSA has 36 members with a combined gross registered tonnage of 9.02 million tonnes, which represents 90% of the total Indian tonnage.

Products & Services On Display: Locus is a real-world ready, end-to-end dispatch management platform that enables last-mile excellence. Locus brings real-world decision-making capabilities to dispatch managers by accounting for over 180 constraints, including route restrictions, hours of service, cost, choice & availability of carriers, &more. The platform can help make every delivery more efficient than the last, which results in fewer miles traveled, and more deliveries being done in a day. Locus has helped many global customers across industries – Unilever, Nestle, Bukalapak, The Tata Group, BlueDart, etc. – execute 650 million deliveries across 30+ countries. Its technology has also helped save \$200 million in transit costs and offset 70 million kilograms in CO2 emissions while maintaining a 99.5% SLA adherence ratio.

Organisation Profile: Locus is a leading-edge technology company solving one of the most challenging global supply chain problems: last mile logistics. Locus& order-to-delivery dispatch management platform helps enterprises transform their last mile logistics operations into growth centers through advanced optimization algorithms and intuitive workflow automation that equip businesses with the tools needed to maximize efficiency while delighting customers. Founded in 2015 and backed by GIC Singapore, Qualcomm Ventures, Tiger Global, and Falcon Edge, Locus has helped a wide range of customers globally across industries—including Unilever, Nestle, Bukalapak, The Tata Group, BlueDart, and more—execute 650 million deliveries across 30+ countries across North America, Europe, Southeast Asia, the Middle East, ANZ, and the Indian subcontinent. Its technology has also helped save \$200 million in transit costs, offsetting 18 million tonnes in CO2 emissions while maintaining a 99.5% SLA adherence ratio.

Organisation Profile: A prominent name in the eCommerce shipping market, NimbusPost is a Delhi/NCR-based shipping aggregator offering worldwide logistics services to SMEs and large enterprises. The company has tied up with India's leading 27+ courier partners, including DTDC, Blue Dart, Delhivery, XpressBees, Shadowfax, Ekart, Smartr Logistics, and others. Backed with the latest AI technology, machine learning, automation, and a team of 500+ technologically sound engineers and logistics experts, the company registers 2 Million+ transactions every day. Founded in 2018, NimbusPost has carved a strong niche for itself in the logistics domain in a short duration. The company launched its worldwide fulfilment services in 2021. Leveraging the fulfilment facilities, eCommerce sellers can store inventory nearest to their customers and deliver them in the least time possible. By stocking products close to customers, the sellers will be able to bring down their shipping expenses by almost 30% and RTO by 10%*. Comprehensive eCommerce benefits offered by the tech-enabled platform make NimbusPost more than just a shipping aggregator. Among 60,000+ happy sellers, Baidyanath, Borges, PoochMate, Suta, Meena Bazaar, Ajanta Shoes, and Sleepy Owl Coffee are some of the major brands NimbusPost has served to date.

Arjas Steeloperates two Steel Plant situated at Tadipatri in The State of Andhra Pradeshand Mandi Gobindgarh in the state of Punjabin India.

The Arjas steel group has gone through several up gradations and transformations in last several years to emerge in its present Avatar afteracquisition of Punjab plant as a Leading manufacturer of Alloy Steel in the country.

The name Arjas is derived from the Sanskrit word Arjava which means Straightforwardness, Sincerity and Harmony in one's Thought, Words and Actions towardsoneself and others.

The manufacturing unit at Tadipatri known as Arjas Steel Pvt Ltd.is spread over 846 acres with a capacity of 300,000 MT/Anum of Special steel. The unit is fully integrated from sinter plant, coke oven, blast furnace, steel melt shop with full refining facilities, a modern rolling mill and a state of the art finishing and inspection facilities. Facilities for Heat Treatment and Cold Finishing have also been installed to cater to the High end Precision requirements of the Industry. To supplement the power requirements, it has 2 captive power plants producing 21 MW (about 70% of the energy requirements).

The manufacturing unit at Mandigobindgarh known as Arjas Modern Steel Private Limited (AMSPL) currently has a total steelmaking capacity (through two Electric Arc Furnaces of about 12,000 tons per month and rolled products of about 9000 tons per month. Apart from this it also has facilities to make Big Sized Ingots, IF and AOD to produce Stainless and other Tool & Die steels. The unit also has facilities for heat treatment, bright bar manufacturing. A detailed roadmap is being drawn up to upgrade the existing facilities and take up the capacity to around 15000 tons per month and also adding facilities for Vacuum Induction Melting (VIM), VAR, ESR etc. for making ESR & Super alloy steels.

The main focus is on the automotive, defense, railways and related industries. The Tadipatri plant became operational in Nov 2012and The Mandigobindgarh operations were taken up from November 2020 and both the plants have been scaling new heights with addition of various profiles and ramping up of production to utilize the full capacity.

The plants have received several certifications like ISO 9001, IATF16949, ISO 14001, OHSAS 18001 &ISO 50001 and have emerged as leading suppliers to Indian Automobile industry. Arjas SteelGroup follows international standards of corporate governanceand in all its operations uses the most modern management tools to reach increasing levels of excellence.

Safety First, Integrity Always, Excellence with Simplicity and Respect for All are the guiding factors for operating a sustainable steel business and creating Value for All our Stakeholders in Arjas Steel Group.

Wealso operate 3 sales offices and warehouses in Chennai, Pune and Faridabad along with representative sales outlets at Chandigarh, Ghaziabad, Rajkot & Mumbai for serving the markets all over India. We have developed various Carbon, Alloy and Micro-alloy steels in Profiles like Rounds and HexagonalBarsfor critical applications in As rolled, Cold Finished & Heat Treated conditions and are constantly working with the customers for Product Innovation & Development based on specific customer requirements.

The Steel Plants have been approved for supplies by Major Automobile OEM's like Ashok Leyland, Mahindra, Volvo Eicher, Daimler, Maruti Suzuki, Hyundai, General Motors, Ford, Hero MotoCorp, Honda, TVS, Yamaha etc. apart from RDSO for Railway supplies, BHEL for energy sector and DRDO for Defense supplies.

We are also investing in our community in Tadipatri and Mandigobindgarh and are proud corporate citizens of India. The company has launched several Skill Development and other Social Initiative for the Development of the local community. Arjas Steel believes in sustainable growth by partnering with the community.

SILVER SPONSOR

TATA METALIKS

A subsidiary of Tata Steel, Tata Metaliks Limited has its state-of-the-art manufacturing plant at Kharagpur, West Bengal, India which produces the finest quality of pig iron and ductile iron pipes in India. The plant's annual hot metal production capacity is 600,000 tonnes out of which 300,000 tonnesper annum is value added into ductile iron pipes and balance is castinto pig iron.

Pig iron is used as raw material for manufacturing various kinds of castings by foundries while ductile iron pipes are used for conveyance of water and sewage. Tata Metaliks' pig iron, known as "Tata eFee" and ductile iron pipes, sold under the brand "Tata Ductura", are known for their superior quality standards amongst the customers in the industry.

The Company has been fulfilling its vision of "Reaching Tomorrow First" by offering innovative products to its customers worldwide. Setting industry benchmarks through quality products and service offerings, Tata Metaliks has under its umbrella a range of branded products customized to meet specific user needs.

Combining customer-centricity with technical efficiency, Tata Metaliks has retained its position of being the supplier of choice. Fostering a customer-centric culture across all its operations, the Company provides an end-to-end service bouquet for customers of pig iron and ductile iron pipes.

Tata Metaliks considers its interest to be inseparable from that of the requirements of the community. The Company continually involves itself in activities which benefit the inhabitants of the areas around its operations and improve their quality of life.

Nand Ghar: Model Anganwadi project with Ministry of Women and Child Development

L&T has shown the mettle to create these metal marvels

L&T Minerals & Metals (M&M) Strategic Business Group of L&T Construction is India's market leader in Engineering, Procurement, and Construction (EPC) of metallurgical projects. L&T has played a major role in the development, modernization, and expansion of several metallurgical plants in the country across ferrous and non-ferrous plants and is capable of undertaking detailed engineering, procurement, manufacture, supply, construction, erection, and commissioning of projects through its dedicated business units covering Project and Product businesses.

PROJECT BUSINESS

The Project Business is a one-stop solution for the ferrous and non-ferrous sectors covering iron and steel industries, Aluminium, Copper, Zinc, Lead, Mineral Beneficiation plants, and Specialty Conveyors.

M&M has constructed projects that have resulted in several long-standing customer relationships with all industry majors across the world. We provide turnkey EPC services for the ferrous and non-ferrous sectors across India, the Middle East, and Africa.

PRODUCT BUSINESS

The Product Business Unit (BU) is a world-class one-stop solution for a wide spectrum of design, manufacturing, and servicing of industrial products for the mining, cement, construction, steel, ports, and other core industries.

We provide concept-to-commissioning cost-effective solutions with the provision of custom layouts and customized product such as Crushing and Feeding solutions, Blast Free Surface Miners, Sand Plants, Steel Plants, Material Handling Solutions and Port Cranes.

Contact: Vishal Patel, VP

Company Profile: Abellon Group is a pioneer for Waste Management in India with a strong focus on Achieving Circularity via Waste to Energy, Material Recovery, Bio CNG and Plastic Recycling. Abellon is working at the forefront of Swachh Bharat Mission and its business model touches 10 of the United Nation's 17 "Sustainable Development Goals". The Genesis of Abellon is built on tackling two key global pollutants - 1) Green House Gasses and 2) Particulate Matters. Abellon has won prestigious awards; like Ashden for Sustainable Solutions and Zayed Future Energy Award; at a host of international forums for pioneering work in the Waste-to-Energy segment, which reaffirms the capability and knowledge base of the organisation in waste management and sustainability. Abellon's plant in Jamnagar is Gujarat's first Waste to Power Plant, the plant has also received the IGBC Platinum certification. The company also has Waste Concessions for Rajkot, Ahmedabad and Vadodara; in Gujarat. Moving forward, the Bio CNG and Plastic Recycling Plants will drastically reduce the open dumping, thereby reducing environmental pollutants and freeing up land; for the local development. The Group's capability enables us to partner with various government and corporate organizations in meeting the common goal of sustainable and environ-friendly waste management.

ADVANCE WATER DIGEST PVT LTD

Stall No: S13

Vipul Business Park, 10th & 11th Floor, Sohna Road, Sector 48, Gurgaon-122018. Haryana

Phone: 9999887154,

Email: marketing@thewaterdigest.com; Website: www.thewaterdigest.com

Chief Excutive Name: Mohammad Wasim Fazal, GM- Sales & Marketing

Organisation Profile: Water Digest is India's premier Water magazine acting as the mouthpiece of the water industry since 2006 and the winner of 'Best English Newspaper' award at the maiden National Water Awards 2018 and 2019 by the Ministry of Jal Shakti, Government of India, Best media outreach in water by ASSOCHAM, and International recognition as 'Best Brand' worldwide excellence award in Malaysia. Water Digest promotes and builds awareness on critical water issues & amp; triggers actions to facilitate the efficient management and use of water on an environmentally sustainable basis. The magazine has its annual awards which cover several segments and is a way of recognising our water warriors. Every individual and industry has its responsibility towards society and Water Digest Awards leave no stone unturned in recognising the water warriors. With today's fast-paced population, very few of us have the option of reading a magazine, but still, want to be always updated. Looking at the gap between the water industry and people, Water Digest introduced its 24-hour news portal - WD NEWS. WD News is a one-of-its-kind news portal, which keeps you informed about every single happening related to water around the globe. Water is a vast subject which has always been on the back burner, but now is the time that it should be approached with maximum focus, and a strong vision of conservation and proper management. Working with ethics and away from the mainstream media, with our continuous efforts, Water Digest is kept informing the masses rather than just making a presentation of a news portal. In this continuation, under the aegis of "Water Digest Knowledge Exchange Forum" initiative by Water Digest to promote discussion, awareness, and information sharing among the participants and to encourage people to become active participants to save and conserve water. We have been successfully organising conferences, conclaves across the country, in partnership with various states like we did for Swachh Jal Swachh Bharat in New Delhi, Swachh Jal Maharashtra I & II in Mumbai with Maharashtra state government, Chhattisgarh Jal Chintan with the Chhattisgarh state government in Raipur, Gujarat Jal Jagriti-I in Gandhinagar with Gujarat state government, Restoring Water, Restoring Nature I & II in New Delhi, and many more.

Contact: Deven KK Chheda, Director

Company Profile: Arion Techsol Pvt Ltd is a start-up, with a clear focus to provide Live, reliable & authentic data to the decision makers in ULB, on water sourced, stored & discharged from ESR/ sumps. In addition to it we also provide live data on pH, TDS & electricity units, voltage & current consumption. For India, water remains a resource beyond the reach of many & India is already a water stressed country. The lack of authentic & reliable data on water is hampering the formulation of sound policies to fight water stress. Powered by sensors, proprietary micro-controllers & proprietary software, our IoT based Wireless Smart Water, Electricity, pH & TDS monitoring solutions are sustainable yet scalable, high on efficiency and higher on cost savings - a boon to your water management problems. The software records and analyses the data on procurement from source of water, storage of water in Elevated Storage Reservoirs (ESR) and Ground Storage Reservoirs (GSR) as well as distribution from ESR and GSR. With IoT at its core, real time monitoring is easy, useful and cost-effective. Powered by the most efficient energy source - the solar energy powered batteries along with lithium batteries, have helped us keep costs at bay, offering us the much needed scope to help rural India too, to save water smartly.

Phone: 9176324212, Email: khushboo@wegot.in; Website: https://www.wegot.in

Chief Excutive Name: Khushboo Vyas, Head - Strategic Operations

Organisation Profile: We have built a water management platform - WEGoT aqua, with an aim to reduce the water consumption by bringing about a much need behavioral change in the way people use water. Having understood the promise of IoT, we have ventured to develop a sensor-based IoT device and a software platform that provides an end-to-end water management solution. WEGoT's IoT based sensors enables real time, data driven & automated decision making to reduce the water demand & increase the efficiency of water infrastructure in buildings. WEGoT aqua tracks the usage at all consumption points & generates bills as per water usage. The sensor also detects & notifies leakages, broken pipes, abnormal usage in real time via mobile app and web dashboards. Once notified, the user can shut the leaks remotely, thus saving water from getting wasted in leakages. It enables people to be more accountable by making real time decisions to eliminate any inefficiency in the water infrastructure of buildings in the built environment. Our presence 50k+ homes, 40 million sq.ft of commercial space has saved 5 billion+ liters of water.

Make every drop of water, perform in a big way.

Out of the total water available across the globe, only around 60 percent is utilizable water. This is one of the reasons why optimization of existing water reserves through adequate treatment and storage is quintessential. MV Motors and Drives from Siemens Large Drives, play a very important role in facilitating the process of water pumping and transfer. Our distinctive combination of products and solutions form the basis for drive systems augmented for a wide range of industries and applications.

Confederation of Indian Industry

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, with over 9000 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 300,000 enterprises from 294 national and regional sectoral industry bodies.

For more than 125 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

As India marches towards its 75th year of Independence in 2022, CII, with the Theme for 2021-22 as Building India for a New World: Competitiveness, Growth, Sustainability, Technology, rededicates itself to meeting the aspirations of citizens for a morally, economically and technologically advanced country in partnership with the Government, Industry and all stakeholders.

With 62 offices, including 10 Centres of Excellence, in India, and 8 overseas offices in Australia, Egypt, Germany, Indonesia, Singapore, UAE, UK, and USA, as well as institutional partnerships with 394 counterpart organizations in 133 countries, CII serves as a reference point for Indian industry and the international business community.
