WD_BLACK™

POWER FOR THE WIN

- Sequential Read Speed¹: 7,200 MB/s² [8TB⁴ Model]
- Sequential Write Speed¹: 6,600 MB/s² [8TB⁴ Model]
- With capacities³ ranging from 1TB, 2TB, 4TB and 8TB⁴

1. The sequential read speed and sequential write speed is based on the product features of WD_BLACK™ SN850X NVMe™ SSD [With Heatsink & Without Heatsink Model].

2. Based on read speed, unless otherwise stated. 1 MB/s = 1 million bytes per second. Based on internal testing; performance may vary depending upon host device, usage conditions, drive capacity, and other factors.

3. The capacities are based on the product features of WD_BLACK™ SN850X NVMe™ SSD [With Heatsink & Without Heatsink Model].

4. 1GB = 1 billion bytes and 1TB = 1 trillion bytes. Actual user capacity may be less depending on operating environment.

PIONEERS AT HEART.
WE TURN PASSION
INTO POSSIBILITIES.

Primetals Technologies leads new and existing solutions and services toward a sustainable metals industry. From developing new processes and digital applications and delivering advanced products, we turn passion into possibilities.

CONFERENCE PROGRAMME @ IETF 2025

Day 1		Room 3A	Room 3B	Room 4A	Room 4B	B2B Meetings Lounge
Morning	"LEVELLING UP: SHAPING INDIA'S GAMING ECOSYSTEM FOR A GLOBAL FUTURE" (IGDS)	Conference on Real Estate & Building Technology Building the Future of Innovative India Technology Sustainability Growth (Infra)	Creating Incubation Centre by Corporate Members - MoU with DPIIT (Madhu Vasanty)			B2B Meetings
Afternoon						B2B Meetings
Day 2		Room 3A	Room 3B	Room 4A	Room 4B	B2B Meetings Lounge
Morning	Logistics Summit 2025 (Institute of Logistics)	Empowering India's Growth: Harnessing AI & Quantum Technologies (AI Forum)	Third Committee Meeting of the Consumer Electronics and Durables Sector/ Conference (Manufacturing)	Conference on Green / Net Zero Factories (GBC)		B2B Meetings
Afternoon	"LEVELLING UP: SHAPING INDIA'S GAMING ECOSYSTEM FOR A GLOBAL FUTURE" (IGDS)		Conference on Metal & Metallurgy"Forging Enduring Partnership' (TFD)	"Conference on Drivers and Enablers of Water Neutrality for Industry" (Water Institute)		B2B Meetings

CONFERENCE PROGRAMME @ IETF 2025

Day 3					
Slot	Room 3A	Room 3B	Room 4A	Room 4B	B2B Meetings Lounge
Morning	"LEVELLING UP: SHAPING INDIA'S GAMING ECOSYSTEM FOR A GLOBAL FUTURE" (IGDS)			Confence on Fluid Power (Fluid Power Society)	B2B Meeings
Afternoon					B2B Meeings

I extend a warm welcome to all participants of the 26th International Engineering and Technology Fair (IETF) 2025 at New Delhi, from February 20 to 22, 2025.

Since its inception in 1975, IETF has grown into a premier mega exhibition, drawing leading engineering firms and technology providers from India and across the globe. It serves as a dynamic platform to showcase innovation, advanced machinery, and cutting-edge technologies, contributing to the growth of the manufacturing sector. Beyond an exhibition, IETF fosters networking opportunities and business collaborations in engineering and technology.

With over 500 participants from around 10 countries, IETF 2025 features eight specialized shows and three concurrent shows covering diverse sectors including Industrial Automation & Robotics, Logistics & Fluid Power, Metals & Metallurgy, Water & Waste Management, Real Estate & Building Technology, Consumer Durables, and Net Zero Technologies. Additionally, the three concurrent shows will focus on Artificial Intelligence, Gaming Sector and Health Tech.

These exhibitions align with India's key economic priorities under the theme of building Atmanirbhar Bharat driven by innovation and technology.

Delegates and participants can look forward to a robust schedule of conferences, product launches, and e-sports events, tailored to industry-specific advancements.

The Confederation of Indian Industry (CII) sincerely thanks the Government of India, trade bodies, manufacturers, service providers, and startups for their support. We are confident that IETF 2025 will once again deliver a vibrant and enriching experience for all delegates and visitors.

We wish you all a successful and rewarding IETF 2025.

Chandrajit Banerjee

Director General

Confederation of Indian industry

I am delighted to present the 26th edition of the International Engineering and Technology Fair (IETF) 2025. As India's first business exhibition and the biennial flagship event of the Confederation of Indian Industry (CII) since 1975, IETF has grown into one of the most comprehensive international B2B events in this region.

Over its 50 year journey, IETF has witnessed India's emergence as a credible business partner and a preferred global investment destination across multiple sectors. By bringing together key industries, IETF 2025 will showcase the latest advancements in manufacturing and services, offering a glimpse into cutting-edge innovations from around the world.

This year, Japan will be the Focus Country, featuring an exclusive country pavilion, with over 70 exhibitors, dedicated to modern technologies and innovation. With participation from key stakeholders from India and abroad, the event will span 11 major industry and service sectors, serving as an ideal platform for global networking and future business collaborations.

India stands on the brink of a transformational era, ready to demonstrate its manufacturing prowess and compete on a global scale through innovation. CII remains committed to showcasing India's capabilities and growth through platforms like IETF, reinforcing the vision of: "Building Aatmanirbhar Bharat – Driven by Innovation & Technology."

I extend my heartfelt gratitude to all participants and stakeholders for being part of IETF 2025.

Wishing you all a highly successful and rewarding experience!

B Thiagarajan

Chairman Trade Fairs
Confederation of Indian industry

- **26th IETF 2025 – CII’s Flagship Event in Its 50th Year**
- **Japan Pavilion with 70 Exhibitors & Performing Artists Team**

Presence of over 70 companies from Japan, covering a series of industry segments Showcasing Engineering, Innovation, IT, Video Gaming, Anime, Travel & Tourism, and Food Technologies, at the 26th Edition of IETF 2025 – International Engineering & Technology Fair – is one of the highlights of this event at this edition.

Spread across an exhibition area of over 20000 sqmtrs at the **New Exhibition Venue, IETF 2025 is scheduled from 20 to 22 February, 2025 at Pragati Maidan, New Delhi.** The current edition of IETF, the Flagship Event of CII, held every alternate year since 1975, celebrates its 50th Year at this edition, with over 300 exhibitors and delegates from over 20 countries.

IETF is a Global Platform and in the past, developed countries used this event to establish business linkages in India, by participating as **Partner Countries, showcasing their industrial strengths and innovation capabilities.** These are - Italy (two times), Canada, USA, UK, Germany, Japan (five times), South Korea (two times), Spain, China, and South Africa (two times).

IETF is a multi-sector event, and showcases future technologies and products, under a common platform. IETF 2025 will showcase the industrial strengths and innovation capabilities of India, through its **focused and concurrent shows, representing 11 industry sectors.** The select sectors are – real estate and building technologies, artificial intelligence (AI), consumer electronics, digital gaming, fluid power, net zero products and services, healthcare, industrial automation & robotics, modern logistics solutions, metal and metallurgy, and water & solid waste management.

Major Brands at IETF 2025 - The current edition has presence and participation of over **300 exhibitors and delegates from 20 countries**, including Global Brands, representing multiple sectors.

Some of the key brands at IETF this time are, Sony Playstation, LG Electronics, Blue Star, W D Black, Nodwin Group, KRAFTON, Jet Synthesys Group, Samsung, BAXY, BET Medical, DANIELI India, Eureka Forbes, Havells, Hydrotherm, Linde, Luminous, Microsoft, MSI, Robato Systems, Schneider Electric, Schunk, MS Group, SAP, Vedanta, Hindustan Zinc, Whirlpool, Westin Hydraulics, Kone Elevators, JSW, Jindal SAW, JSPL, L&T, Wipro, Ministry of Ayush, Siemens, etc.

The Indian Start Up Community with a very strong presence of over 40 companies representing a variety of sectors, offering solutions, new technologies, and innovative products for future, especially for Healthcare, Artificial Intelligence, and Water & Waste Management, is a major attraction of **IETF 2025**.

Concurrent Shows with IETF 2025:

1. AI India 2025 – Exhibition & Conference on Artificial Intelligence
2. Health Tech India 2025 – Exhibition & Conference on Healthcare Technologies
3. India Gaming Show (IGS) 2025 – Exhibition & Conference on Digital Gaming

Focused Shows at IETF 2025:

1. Consumer Electronics Expo 2025
2. Fluid Power Expo 2025
3. India Industrial Automation Robotics & Electronics Expo (IIAREE) 2025
4. Logistics 2025
5. Metal & Metallurgy Expo 2025
6. Net Zero Products & Solutions Expo 2025
7. Real Estate and Building Technologies Expo (REBT) 2025
8. Water & Waste Expo 2025

IETF 2023 highlights:

- Supported by:
 - Ministries of Ayush (Department of Pharmaceuticals), Ministry of Housing & Urban Affairs, and Ministry of Steel, Government of India.
- **Country Pavilion** from Japan
- **Special technologies** driven by AI for Manufacturing
- **Special Focus** on AI in Healthcare and Environment
- **Start Up Zones** offering smart and intelligent solutions

Sector specific conferences on relevant subjects of IETF 2025, ranging from Artificial Intelligence, Gaming Technologies, Water Management, Metal & Metallurgy, Fluid Power Technologies, Real Estate & Building Technologies, Consumer

Electronics, Green/Net Zero Factories, and B2B Meetings, are planned during IETF 2025. This will bring together experts and decision makers from Industry, Government and Media to deliberate on future businesses and collaborations.

India Gaming Show (IGS) 2025 – The 7th edition IGS 2025, concurrently held with IETF 2025, will showcase advanced technologies for the Gaming sector with active participation from key players in the sector. Special attractions at this edition would include, Visit of Influencers, Esports tournaments, Cosplay Competition (international Cosplayers from Russia, Kuwait, Moldova are participating), Stage Events - Live Performance of Artists (over 20 Anime and Music Artists) from Japan, International Gaming Conference, and visit of delegations from India and overseas.

IETF 2025 received an overwhelming response with over 8,000 pre-registered business visitors and delegates, representing government, industry, and media from India and Overseas over the three days.

Confederation of Indian Industry

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, with around 9,000 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 365,000 enterprises from 294 national and regional sectoral industry bodies.

For more than 125 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness, and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Through its dedicated Centres of Excellence and Industry competitiveness initiatives, promotion of innovation and technology adoption, and partnerships for sustainability, CII plays a transformative part in shaping the future of the nation. Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes across diverse domains including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

For 2024-25, CII has identified "Globally Competitive India: Partnerships for Sustainable and Inclusive Growth" as its Theme, prioritizing 5 key pillars. During the year, it would align its initiatives and activities to facilitate strategic actions for driving India's global competitiveness and growth through a robust and resilient Indian industry.

With 70 offices, including 12 Centres of Excellence, in India, and 8 overseas offices in Australia, Egypt, Germany, Indonesia, Singapore, UAE, UK, and USA, as well as institutional partnerships with about 300 counterpart organizations in almost 100 countries, CII serves as a reference point for Indian industry and the international business community.

CII - GREEN ENTREPRENEURSHIP COUNCIL

The **Green Entrepreneurship Council (GEC)** is a pioneering initiative by the Confederation of Indian Industry (CII) – Sohrabji Godrej Green Business Centre, dedicated to fostering innovation and entrepreneurship in clean technologies. Cleantech, an umbrella term encompassing solutions like renewable energy generation, energy storage, sustainable materials, electric mobility, energy efficiency, biofuels, water management, waste management, pollution reduction, and digital innovation in operations, offers transformative opportunities to address environmental challenges while driving economic growth.

Despite India's position as a global leader in industrial clean technologies, the adoption of cleantech solutions remains limited due to barriers like low consumer awareness, restricted outreach, limited capacity to nurture innovative ideas, and a high cost of customer acquisition (CAC) for startups. These challenges prevent many promising cleantech solutions from achieving their potential impact.

GEC was formed with the **vision to foster a robust ecosystem that empowers and accelerates the growth of cleantech startups, driving India towards a greener, resource-efficient, and net-zero economy.** By facilitating collaborations among innovators, implementors, mentors, and investors, GEC creates pathways for turning cutting-edge concepts into scalable solutions that the market demands.

Support to the CleanTech Startups

Through tailored acceleration programs and capacity-building initiatives, GEC accelerates the business growth of cleantech startups and bridges gaps between technological innovation and market implementation. Additionally, by engaging with industries, GEC facilitates the adoption of cutting-edge clean technologies, driving operational efficiency and sustainability. Through strategic collaborations, it empowers industries to transition towards greener practices while maintaining competitiveness. Together, let us drive India's transformation into a global leader in sustainability, fostering innovation that balances economic growth with environmental responsibility.

Benefits to the Industry

To know more and to engage with the cleantech startups, please write at gec@cii.in

**EXHIBITOR
PROFILE**

ASANO CO., LTD.

Japan

Phone : +81-80-2252-7934

Email : asano-keisuke@asano-japan.com

Website : www.asano-japan.com/eng

Contact Executive : Mr. Keisuke Asano

Company Profile: Product: STIFF R/L, FR PLR UP - Possesses manufacturing technology to form steel sheets (1470 MPa) 1 mm thick in a single process. A revolutionary manufacturing technique that prevents springback and eliminates finishing process. Highly regarded by Japanese automotive OEMs as technology that shortens lead time and reduces costs.

CHUO KAKOHKI CO., LTD.

Japan

Phone : +84-90-139-7587

Email : shibasaki@chuokakohki.co.jp

Website : www.chuokakohki.co.jp

Contact Executive : Ms. Ayaka Shibasaki

Company Profile: Product: Vibration Dryer - Drying by indirect heating prevents contamination and maintains the purity of the dried product. It is less likely to break down because there are no blades to stir/mix the dried product. The simple structure and few parts make maintenance easy.

Hall No. 4

DAITO CO., LTD.

Japan

Phone : +81-3-3669-4511

Email : m.hanamura@liqui-moly.co.jp

Website : daito-japan.com

Contact Executive : Mr. Masashi Hanamura

Company Profile: Product: MoS₂ Lubricating Coating Agent - Low friction coefficient achieved through the optimal combination of resin, solid lubricants and their best balance. Durable and flexible lubricating film with PAI (polyamideimide) as base resin. Optimal combination of Molybdenum disulfide (MoS₂) and PTFE as solid lubricants.

Hall No. 4

ENOMOTO MACHINE CO., LTD.

Japan / India

Phone : +81-42-782-2842 / +91-98105-81003

Email : enomoto@enomt.co.jp / vinesh.vsa@gmail.com

Website : www.enomt.co.jp/top_english

Contact Executive : Mr. Yoshio Enomoto / Mr. Vinesh Tolani

Company Profile: Product: Forge Servo screw press - Electric energy less, Less maintenance, Skill less.

Hall No. 4

JAPAN ECOLOGY CO., LTD.

Japan

Phone : +81-80-5678-9773

Email : c.group.tomishima@gmail.com

Website : jpecology.co.jp

Contact Executive : Mr. Junichi Tomishima

Company Profile: Product: Eco Fenix - Lead battery regeneration technology reduces CO2 emissions. Remanufactured batteries can reduce costs and generate profits. Providing trust with "Japanese quality".

Hall No. 4

JAPAN EXTERNAL TRADE ORGANIZATION

India

Phone : +91-11-4000-6900

Email : IND-info@jetro.go.jp

Website : <https://www.jetro.go.jp/en/>

Contact Executive : Mr. Hiroki Kawasaki, Senior Director

Company Profile: JETRO, or the Japan External Trade Organization, is a government-related organization that works to promote mutual trade and investment between Japan and the rest of the world. Originally established in 1958 to promote Japanese exports abroad, JETRO's core focus in the 21st century has shifted toward promoting foreign direct investment into Japan and helping small to medium size Japanese firms maximize their global export potential.

Hall No. 4

KAMATA TECNAS CO., LTD.

Japan

Phone : +81-92-571-2398

Email : hirotsugu@kamatatecnas.co.jp

Website : www.wellair-kamata.com/en

Contact Executive : Mr. Hirotsugu Kamata

Company Profile: Product: WELL AIR - Maintenance-free, No performance change and long life, 99.99% water removal rate.

Hall No. 4

KANEKO MANUFACTURING CO., LTD.

Japan

Phone : +81-48-794-8111

Email : info@t-kaneko.co.jp

Website : www.t-kaneko.co.jp/en

Contact Executive : Mr. Ngyuyen Xuan Hieu

Company Profile: Product: High Precision Machining - We are an expert in machining with strict tolerance for parts with complex-shape or dia 1-700mm. Materials: Stainless steel, Super engineering plastics, Machinable ceramics, Hard-to-cut materials. According to ISO9001, 13485, JISQ9001, we ensure stable quality from prototype to mass production.

Hall No. 4

MINAMIDA CO., LTD.

Japan

Email : 02_takeshi@minamida.co.jp

Website : minamida.co.jp/en

Contact Executive : Mr. Takeshi Minamida

Company Profile: Product: COLD FORGED PARTS - Near Net Shape by High Technology of Cold Forging for Less Machining, 2ndary Operation.

Hall No. 4

MORI IRON WORKS CO., LTD.

Japan

Phone : +81-90-2585-6454

Email : takaaki-matsuoka@moriiron.com

Website : www.moriiron.com/english

Contact Executive : Mr. Takaaki Matsuoka

Company Profile: Product: FINEBLANKING PRESS - Clean cross-section processing, High value-added forging.

Hall No. 4

MUSCLE CO.,

Japan

Phone : +81-6-6229-9550

Email : morioka@musclecorp.com

Website : musclecorp.com/en/motion-control/

Contact Executive : Mr. Koichiro Morioka

Company Profile: Product: COOL MUSCLE 3+ (Integrated Servo System) - Small and precise Integrated Servo System. Precise motion profile and high torque density. Motion control technology.

Hall No. 4

NEMOTO CO., LTD.

Japan

Phone : +81-3-3333-2760

Email : k-matsumura@nemoto.co.jp

Website : www.nemoto.co.jp/en

Contact Executive : Mr. Kanji Matsumura

Company Profile: Product: Gas Sensor - Sensors for flammable gas detection. For equipment such as gas leak alarms, water heaters, FCs etc. Sensors for toxic gas detection with high selectivity. For consumers alarms and industrial use.

Hall No. 4

NISHIOKA MALLEABLE IRON IND. CO., LTD.

Japan

Phone : +81-594-46-2148

Email : t.miwa-t@nishioka-mountain.co.jp

Website : nishioka-mountain.co.jp/old_site/english/

Contact Executive : Mr. Takanori Miwa

Company Profile: Product: Brake disc rotor - 2 pieces type brake disc rotor/High performance type brake disc rotors for competition & racing cars. 1 piece type brake disc rotor/ OEM replacement brake disc rotors for the passenger cars.

Hall No. 4

PI PHOTONICS INC.

Japan

Phone : +81-53-581-9683

Email : t-nakaya@piphotonics.co.jp

Website : www.piphotonics.com/en

Contact Executive : Mr. Tomotaka Nakaya

Company Profile: Product: LED Safety Light - With its patented technology, HOLOLIGHT delivers an edgy and intensely bright light pattern. Offers a variety of light patterns and provides tailored solutions to meet each customer's needs. Achieves a small & light-weight fixture and low power consumption.

Hall No. 4

SAKAGAMI SEISAKUSHO LTD.

Japan

Email : k-nakamura@sakagami-ltd.co.jp

Website : www.sakagami-lts.co.jp/en/home-en

Contact Executive : Mr. Kentaro Nakamura

Company Profile: Product: Hydraulic packing - Original designing and material development for various needs. Manufactured on the basis of international Hallard, ISO9001 & 14001 management system. Packing for both piston and rod which is well recognized in the hydraulic equipment market.

Hall No. 4

SAKAMURA HOT ART CO., LTD.

Japan / India

Phone : +81-774-43-7461 / +91-98287-31810

Email : daisuke-enomoto@sakamura-hotart.co.jp /
nitin-bhayani@sakamura-hotart.co.jp

Website : www.sakamura-hotart.org/en

Contact Executive : Mr. Daisuke Enomoto / Mr. Nitin Bhayani, Indian Advisor

Company Profile: Product: Hot former - High speed production of automotive parts and bearing blanks. Production of high-precision forged blanks. A wide range of machines (Forging capacity 900kN-21,00kN).

SANRITSU MACHINE INDUSTRY CO., LTD.

Japan

Phone : +81-43-304-7511

Email : akira@sanritsu-machine.com

Website : www.sanritsu-machine.com/en

Contact Executive : Mr. Akira Nakane

Company Profile: Product: Wet Type Nugget Plant - High copper recovery of 99% from very thin wires such as E-West and wire harnesses. Miscuts can be separated without difficulty having Indian patents. Capable of automatically processing very thin wires from crushing, sorting, and drying.

SEISHIN ENTERPRISE CO., LTD.

Japan

Phone : +81-3-3350-5771

Email : overseas@betterseishin.co.jp

Website : www.betterseishin.co.jp

Contact Executive : Mr. Inaba or Hanamoto

Company Profile: Product: Particle Shape Image Analyzer - This equipment captures images of particles and simultaneously measures PSD and particle shape. The use of a unique planar elongation cell enables the capture of sharp, focused particle images. It is possible to measure various particle parameters such as sphericity, area, and length ratio.

Hall No. 4

THAI SENG TRADING CO., LTD.

Japan / India

Phone : +81-6-6796-9378 / +91-95992-05225

Email : nakashige@thaiseng.co.jp / arpitts@thaiseng.net

Website : thaiseng.co.jp/en

Contact Executive : Mr. Yususke Nakashige / Mr. Arpit Gaba

Company Profile: Product: Solvent Recycling Machine - Reduce costs and protect the environment by recycling waste solvents! Reduce waste to cut CO₂ emissions, lessen environmental impact, and achieve SDGs! Solvent recycler with explosion-proof and patented technology for outHalling safety and reliability.

Hall No. 4

TOKAI SPRING INDUSTRIES INC.

Japan

Phone : +81-90-6965-7308

Email : yoshikawa@tokaiweb.net

Website : www.tokaibane.com/en

Contact Executive : Mr. Hidenobu Yoshikawa

Company Profile: Product: Custom-Made Springs - Top supplier of special springs for turbines and high-temp, high-pressure safety valves in Japan. i-MC Spring for Machining Center Spindles ensures durability and exceptional rotational balance. Solutions for complex customer needs with advanced manufacturing, design, and small-lot production.

Hall No. 4

TOYO SUCCESS CO., LTD.

Japan / India

Phone : +81-6-6337-0070

Email : akira-motoshige@toyo-success.co.jp

Website : www.toyo-success.co.jp

Contact Executive : Mr. Akira Motoshige / Mr. Kallol Roy

Company Profile: Product: Slitting Processed Products - Slitting Process for thick and narrow is possible. Slitting Process for thin and narrow is possible. Re-slit products can be processed with minimal losses.

JOCATA

8-2-686/6/D/9, 2nd Floor, Roxana Fortune Complex, Road No. 12, Banjara Hills, Hyderabad -500034, Telangana, INDIA

Mobile : +91-9413156429

Email : pooja.dasot@jocata.com

Website : <https://www.jocata.com/>

Contact Executive : Ms. Pooja Dasot, Marketing Manager

Product Details: AI-powered Digital Lending Platform, Financial Crime Compliance Analytics & Scoring

Company Profile: Jocata (a subsidiary of BillDesk) is a leading digital transformation partner for the BFSI industry, enabling 50+ large financial institutions to be future ready by using modular and scalable best in class technology. Founded in 2010 & headquartered in Hyderabad, Jocata specializes in digital lending using credit automation, smart decisioning and intelligent monitoring. The purpose-built platform from Jocata powers enterprise lending programs for large banks and NBFCs. The highly configurable and low-code platform also operates in a SaaS model to enable analytics driven lending and embedded finance models for lenders, fintechs, neobanks, and marketplaces.

With our deep expertise in the credit ecosystem, we built proprietary Artificial Intelligence/Machine Learning (AI/ML) based scoring models to assess MSME and Retail borrowers (Individuals, Self-employed Professionals and Non-professionals) with 'SME DNA' and 'Retail Persona Score' respectively. We empower financial institutions with deep behavioral and predictive analytics for better underwriting decisions and the overall creation and maintenance of a data-oriented credit policy framework.

In an industry first, Jocata launched India's first MSME Economic Activity Index -Jocata Sumpoorn in association with Small Industries Development Bank of India (SIDBI). Addressing a crucial data-gap in the MSME space, this MSME-specific high-frequency indicator is developed using actual monthly sales data (consent-enabled and anonymized) of credit-seeking MSMEs. It aims to empower financial institutions, policymakers, and economists to strategize credit flow and create tailored policies for the sustainable growth of Indian MSMEs.

Product Details: Kritilabs Technologies specializes in end-to-end digital transformation of organizations through our revolutionary AIoT platform Patented in US and India. We are at the forefront of the Digital Transformation revolution, offering cutting-edge IoT-based AI powered technology solutions that redefine the landscape of Digital Transformation, supported by ground breaking IMS Applications for IOT services.

Our Solutions

Secure Transportation

Intellilock

A Keyless solution, that can be operated through OTP and works on dynamic & customized business rules

Real-time alerts and dashboards for locking & unlocking, deviations, tracking and monitoring

Asset Management & Tracking

Smartseal

The Smart Seal ensures enhanced security during transportation, detecting theft and unauthorized access with RFID/NFC tamper-evident mechanisms.

E-Baton

Coupled with our E-baton, a handheld device designed to read RFID/NFC tags, it transmits crucial information to our AIoT platform for real-time monitoring.

Together, they revolutionize cargo security during loading, transportation, and unloading processes.

AI Powered Video Analytics Solution

VAIOT

VAIOT short for AI powered Video Analytics is used to automate the process of monitoring and interpreting video feeds in real-time. Enabling the detection of specific events, behaviors, or objects of interest within the video footage.

VAIOT comprises of:

VAIOT CAM

AI Cameras customized for Industry use-cases

VAIOT BOX

AI Boxes for existing CCTV Camera infrastructure

VAIOT PRO

Customized hardware and AI covering multiple scenarios

VAIOT CLOUD

Video analytics APIs for easy integration

SCOPPEAM

Integrated platform for real-time digital decisions

Company Profile: Kritilabs Technologies is a pioneer in the area of Remote Asset Management using IOT. Our patented AI2OT platform has created an entirely new method of ensuring security as well as enforcing safety compliances while handling High-Value assets for our customers. Our platform and our products enable securing assets through “keyless locks

Contact Executive 2: Mr. Jay Adnure, Senior Solution Advisor, SAP Business AI

Product Details: SAP offers a comprehensive suite of solutions for various industries and lines of business, deployable on cloud, on-premise, or hybrid environments. SAP's flagship product, SAP S/4HANA Cloud, is a powerful ERP portfolio that helps manage critical operations and expand businesses globally. RISE with SAP and GROW with SAP are tailored offerings to assist in transitioning ERP systems to the cloud, catering to both large enterprises and mid-market customers, respectively.

SAP's Supply Chain Management solution uses AI to streamline and automate supply chain processes, while SAP SuccessFactors provides comprehensive HR management tools for over 10,000 customers. SAP's Intelligent CX solutions enhance customer lifetime value through personalized engagement. Additionally, SAP and its partners offer numerous industry-specific solutions and process transformation tools like SAP Signavio and LeanIX.

Taulia offers cash flow acceleration solutions managing over \$500 billion annually. SAP also provides sustainability-focused solutions like SAP Cloud for Sustainable Enterprises to help companies manage carbon footprints and other environmental impacts. Their services include customized plans, premium engagements, and mission-critical support.

The SAP Business Network encompasses millions of companies across 190 countries, facilitating over \$6.3 trillion in annual commerce. Key spend management solutions include SAP Ariba for procurement, SAP Fieldglass for contingent work management, and SAP Concur with over 96 million end users.

The SAP Business Technology Platform (SAP BTP) is a cloud-native platform optimized for SAP applications. It offers AI-enabled development environments, process automation, integration tools, and a multi-model database to streamline business operations and enhance agility.

Company Profile: SAP is the world's largest provider of Enterprise Application Software. As a global leader in enterprise applications and business AI, SAP stands at the nexus of business and technology. For over 50 years, organizations have trusted SAP to bring out their best by uniting business-critical operations spanning finance, procurement, HR, supply chain, and customer experience.

Company Profile: WOL3D is a pioneer in the Indian 3D printing industry, committed to bridging the gap between ideation and manufacturing. Renowned as a leading manufacturer and distributor of premium-quality 3D printers and filaments, the company combines cutting-edge technology with user-friendly solutions to redefine prototyping and manufacturing. Headquartered in Mumbai, India, WOL3D is an ISO, CE, and RoHS-certified company that meets stringent international standards. Its mission is to empower consumers with hassle-free and innovative 3D printing experiences. WOL3D's products are designed to adhere to RoHS compliance, ensuring safety and environmental responsibility. The company serves as the official master distributor for global giants like Creality, Bambulab, Elegoo, Phrozen, and Flashforge. Additionally, it partners with global OEMs to develop exclusive product lines under its brand names, including Pixel, I-Tech, Gen X, and Hi Smart Series. Strategic partnerships with leading international companies further reinforce WOL3D's commitment to delivering world-class products. WOL3D stands out with several key competitive advantages that solidify its leadership in the 3D printing industry. The company proudly hosts India's first 3D Printing Experience Centre in Mumbai's Lower Parel, offering hands-on exposure to cutting-edge technology. Their comprehensive after-sales service supports all customers, including those who purchased from competitors, ensuring seamless experiences. With an in-house 3D filament factory in Bhiwandi, Mumbai, WOL3D enhances product quality and operational efficiency. Their appearance on Shark Tank India Season 2 significantly boosted their brand value. As the first Indian 3D printing company listed on NSE Emerge, WOL3D has set a benchmark for industry growth and innovation.

Email : corpcomm@dfcc.co.in

Website : <https://dfccil.com/>

Contact Executive 1: Mr. Neelam Bhati, Executive PR

Contact Executive 2: Mr. Nitin Mohindru, Manager OP&PR

Product Details: Dedicated Freight Corridor (DFC)

Company Profile: The Dedicated Freight Corridor (DFC) project by DFCCIL stands as the most ambitious rail infrastructure project in independent India along the Golden Quadrilaterals. The objective has been to decongest our highways, increase railways' share in national freight and improve India's Logistics Ranking by bringing down the logistics cost from the present 13-14% to single digits to usher in a new era of industrial growth. Built with an investment of Rs 1.24 lakh crore, DFCCIL has completed & commissioned 2,741 kilometers of the network over 96.4% of DFC's planned total 2843 Kms to stimulate a new phase in India's economic growth trajectory. The freight on the DFC network is speedier, efficient and safer. Now speed reaching upto 100 kmph reducing the delivery time of goods. The 1.5 km long-haul trains and double stack container trains has increased capacity and is proving to be a boon for bulk commodity suppliers. In just two years, freight trains carrying coal, cement, iron, steel and containers have increased manifold. The latest statistics highlight the growing impact of the DFC corridors. Over 350 trains are carrying 500+ million gross tonne kilometers (GTKMs) every day on average which is 80% higher than last year. In terms of Net Tonne Kilometers (NTKMs), freight carriage doubled compared to the previous fiscal year. New industrial hubs have begun to spring-up along the DFC network while the existing ones are expanding. Despite being just 4% of Indian Railways' total network, corridor is effectively handling more than 14% of its freight

Product Details: Showcasing our product and services

Company Profile: Hindustan Zinc Limited (BSE: 500188 and NSE: HINDZINC), a Vedanta Group company, is the world's second-largest integrated zinc producer and the third-largest silver producer. The company supplies to more than 40 countries and holds a market share of about 75% of the primary zinc market in India. Hindustan Zinc has been recognized as the world's most sustainable company in the metals and mining category for the second consecutive year by the S&P Global Corporate Sustainability Assessment 2024, reflecting its operational excellence, innovation, and leading ESG practices. The company also launched EcoZen, Asia's first low carbon 'green' zinc brand. Produced using renewable energy, EcoZen has a carbon footprint of less than 1 tonne of carbon equivalent per tonne of zinc produced, about 75% lower than the global average. Hindustan Zinc is also a certified 2.41 times Water-Positive company and is committed to achieving Net Zero emissions by 2050 or sooner. Transforming the lives of 1.9 million people through its focused social welfare initiatives, Hindustan Zinc is among the Top 10 CSR companies in India. As an energy transition metals company, Hindustan Zinc is pivotal in providing critical metals essential for a sustainable future.

Company Profile: Jindal Steel & Power (JSP) is an Indian industrial powerhouse with a dominant presence in steel, mining and infrastructure sectors. With more than three-decade-long illustrious history, JSP is continuously innovating, and scaling its capacity utilisations and efficiencies towards creating a self-reliant India. Led by Mr Naveen Jindal, the company produces best-in-class, cost-effective steel through backward and forward integration. It is undertaking ambitious expansion plans, and aims to be known as one of the most efficient, innovative, steel-makers in the world. JSP's business operations span across the states of Odisha, Chhattisgarh and Jharkhand in India and across multiple global destinations including Australia and Africa. JSP has a steel-making capacity of 9.6 MTPA. JSP's captive iron ore mines at Tensa & Kasia in Odisha, have a production capacity of 3.11 MTPA and 7.5 MTPA respectively. JSP has a unique & diverse product portfolio that caters to markets across the steel value chain. JSP has been operating within a well-defined ESG framework under which it plans to be one of the lowest Co2 emitting steel companies in the world within this decade. JSP is the first and only steel maker in India to have commissioned a Coal Gasification Plant (CGP) in 2014 which helps in eco-friendly steel production with lower carbon footprint. JSP is working aggressively to become carbon net zero at an accelerated pace. JSP has been rated as the second-highest value creator in the world between the Years 2005-2009 by the Boston Consulting Group.

Contact Executive 2: Mr. Ch. Srinivasa Rao, Deputy General Manager (CC)

Product Details: NMDC Ltd offers a diverse range of high-quality iron ore products, each tailored to meet specific industrial requirements. From coarse and fine iron ores to specialised pellets, NMDC's offerings ensure efficient and optimal performance for various steelmaking and related processes. In addition, NMDC produces rough diamonds that cater to the gem and jewellery industry. The products we have are Baila ore, Balia ROM, Baila Lump, DR CLO, Baila Fine, Iron ore Pellets and more.

Company Profile: Established in 1958, NMDC Ltd. is India's largest and most responsible iron ore producer, with a distinguished presence in the mining sector. Headquartered in Hyderabad, NMDC operates multiple mines across India, contributing significantly to the nation's mineral development. The company's commitment to sustainable and environmentally responsible mining practices remains a cornerstone of its operations.

NMDC produces a diverse range of products, including iron ore, diamonds, pellets, and wind power, while maintaining the highest standards of responsible mining. Its extensive exploration activities and adoption of advanced mining technologies have reinforced its leadership in the sector. The company continues to invest in cutting-edge infrastructure to enhance efficiency and maximize resource utilization.

Beyond mining, NMDC actively promotes community development and ecological balance, integrating sustainable practices into its operations. Its corporate social responsibility initiatives focus on education, healthcare, skill development, and environmental conservation, fostering socio-economic growth in mining regions.

With a strategic vision for capacity expansion and continuous innovation, NMDC is shaping the future of responsible mining in India and beyond. The company's unwavering focus on sustainability, operational excellence, and technological advancements has established it as a key player in the global mining industry. By setting benchmarks in responsible mining and environmental stewardship, NMDC continues to strengthen its position as a trusted leader, driving India's growth in the mineral sector while ensuring a greener, more sustainable future.

Product Details: Tata Consultancy Services (TCS) is a global leader in IT services, consulting, and business solutions, providing a vast array of products and services designed to drive digital transformation and innovation for businesses worldwide. TCS's offerings encompass IT services, digital transformation solutions, cloud

computing, cybersecurity, and enterprise applications, catering to various industries and sectors.

One of the standout products from TCS is TCS BaNCS, a comprehensive suite of solutions for banks, capital markets firms, insurance companies, and diversified financial institutions. TCS BaNCS leverages cutting-edge technologies to streamline operations, enhance customer experiences, and ensure regulatory compliance.

Another notable product is TCS HOBS (Hosted OSS/BSS), a platform tailored for telecom service providers to manage their business operations efficiently. TCS HOBS enables telecom companies to launch new services quickly, manage customer relationships, and optimize network performance.

For the education sector, TCS offers TCS iON, a cloud-based solution that provides end-to-end services for educational institutions and assessment bodies. TCS iON helps institutions manage their operations, conduct examinations, and deliver personalized learning experiences.

Company Profile: Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 56 years. Its consulting-led, cognitive powered, portfolio of business, technology and engineering services and solutions is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development. TCS geographic footprint covers North America, Latin America, the United Kingdom, Continental Europe, Asia Pacific, India and Middle East Africa.

A part of the Tata group, India's largest multinational business group, TCS employs over 06 Lac people, representing 150+ nationalities and with over 200,000 women employees (35.5 %). TCS has been selected as a top employer of choice in 32 countries. The company generated consolidated revenues of US \$29 billion in the fiscal year ending March 31, 2024, and is listed on the BSE and the NSE in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the MSCI Global Sustainability Index and the FTSE4Good Emerging Index.

TATA POWER RENEWABLE ENERGY

Contact Executive 1: Mrs. Ankita Chowdhury, Head Marketing

Contact Executive 2: Mr. Shivam Khanna, Lead- Marketing

Product Details: Comprehensive green energy solutions like turnkey, EPC and O&M solutions for various business segments like utility scale projects, Wind, solar rooftop systems. Along with its extensive portfolio of renewable solutions. TPREL also provides electric vehicle (EV) charging solutions across various segments and other advisory solutions across the renewable sector. Tata Power Renewable Energy Limited aims to provide energy access to millions of people across the country via its integrated green energy solutions.

Company Profile: Tata Power Renewable Energy Limited (TPREL) is a subsidiary of The Tata Power Company Limited and is one of the country's most significant renewable energy players. TPREL is a developer of renewable energy projects (including solar, wind, hybrid, round-the-clock (RTC), peak, floating solar, and storage systems including battery storage) that it owns, operates, and maintains. It also offers comprehensive green energy solutions for rural and urban areas like turnkey, EPC and O&M solutions for various business segments like utility-scale projects, solar rooftop, and solar pump systems. Alongside its extensive portfolio of renewable solutions, the company boasts a cutting-edge solar cell and module manufacturing plant in Bengaluru, with capacities of 530 MW for solar cells and 682 MW for modules. Additionally, the company's 4.3 GW cells and module manufacturing plant, TP Solar has completed the construction of a 4 GW module manufacturing facility. Along with module, solar cell has commenced commercial production from the 2GW solar cell line. In addition, TPREL also provides electric vehicle (EV) charging solutions across various segments and other advisory solutions across the renewable sector. As on date, TPREL's total renewable utility capacity is 10.9 GW (PPA capacity is 8.8 GW) including 5.5 GW projects under various stages of implementation and its operational capacity is 5.4 GW, which includes 4.4 GW solar and 1 GW wind. Presently, the company's solar EPC portfolio is more than 15 GWp of ground-mount utility-scale, over 2.5 GW of rooftop and distributed ground-mounted systems.

Group Companies: Founded by Jamsetji Tata in 1868, the Tata group is a global enterprise, headquartered in India, comprising 30 companies across ten verticals. Tata Sons is the principal investment holding company and promoter of Tata companies. Sixty-six percent of

Product Details: Our suite of solutions powered by IoT and AI technologies enables asset management and maintenance, resource efficiency, and energy and HVAC optimisation through monitoring and control mechanisms, thereby bringing transparency and visibility to operations.

Additionally, we offer expert consultation to businesses for evaluating their ESG readiness and integrating ESG into their business strategies. This involves emission accounting, measurement systems for sustainability implementation metrics, net-zero solutions, green building consulting services, and more.

Company Profile: Atsuya Technologies was founded in 2017 with a mission to bring operational excellence to businesses with a focus on sustainability. We offer vertically integrated deep-tech solutions across the SDG (Sustainable Development Goals) spectrum to create a far-reaching impact on society through every business we serve.

Founded by software and hardware engineers who have helped design and implement cutting-edge engineering solutions for some of the world's largest corporations, Atsuya's unique proposition is its ability to help clients assimilate learning from across sectors to put in place not best practices, but next practices.

With our state-of-the-art Global Engineering Centre, we are able to offer holistic solutions from devices to dashboards, developed with a design thinking approach, paying special attention to the user-centricity of our offerings.

We use the power of technology to analyse real-time data produced by "dumb machines" and use AI and ML technologies to enable decision-making capabilities using the captured data. The collected data is used to develop and improve quality control, sustainable and green practices, supply chain traceability, and overall supply chain efficiency. In an industrial setting, it performs the functions of predictive maintenance, asset tracking and energy management.

Our patent-winning solutions are tailor-made to suit the requirements of a plethora of industries. We have catered to clients across industries such as energy, agriculture, retail & quick commerce and manufacturing to name a few and have successfully helped drive operational efficiency for industry pioneers.

Fundermax
For you to create

Contact Executive 1: Mr. Sripathi Venkatesh, Marketing Executive

Contact Executive 2: Ms. Sinchana.p, Marketing Trainee

Product Details: Fundermax HPL 6mm Exterior Panel - Product Details

Fundermax 6mm High-Pressure Laminate (HPL) panels are premium façade solutions designed for exterior applications. Engineered using thermosetting resins and reinforced with natural fibers, these compact panels are produced under high pressure and temperature, ensuring durability, weather resistance, and a sophisticated finish.

Key Features:

1. Extreme Weather Resistance - Withstands harsh sunlight, heavy rainfall, and temperature fluctuations without fading or warping.
2. UV & Moisture Resistance - Non-porous surface prevents water absorption, ensuring longevity in outdoor conditions.
3. Impact & Scratch Resistance- High mechanical strength makes it ideal for high-traffic and exposed areas.
4. Fire Retardant Option Available - Enhanced safety features for compliance with fire protection standards.
5. Low Maintenance- Easy-to-clean surface resists stains, dirt, and pollutants, reducing upkeep costs.
6. Eco-Friendly & Sustainable- Manufactured with low-emission materials, adhering to global environmental certifications.

Finishes Available

Fundermax HPL 6mm exterior panels come in five distinct finishes:

- NP
- NY
- NT
- NG

- NH

Applications

- Ventilated Façades - Durable and stylish cladding for commercial and residential buildings.
- Balconies & Soffits - Enhances aesthetics while providing robust weather protection.
- Louvers & Sunshades - Offers shading and ventilation with a sleek architectural touch.

Fundermax HPL 6mm exterior panels provide a perfect combination of performance, aesthetics, and sustainability, making them an ideal choice for modern façade solutions.

Company Profile: FunderMax India Pvt. Ltd. (FIPL), headquartered in Bengaluru, is a 100% subsidiary of FunderMax GmbH, Austria. Since its inception in 2007, FIPL has been at the forefront of offering innovative and specialized products for both exterior and interior applications. With a diverse range of over 32,000 SKUs and more than 100 unique decors, FIPL provides unparalleled design freedom for architects and designers across India. The company has successfully completed over 15,000 projects, enhancing commercial, residential, hospitality, and retail spaces with its high-quality products.

Fundermax's flagship offering, the Fundermax Exterior panels, are high-pressure laminates (HPL) made in Austria, known for their exceptional durability and weather protection. These panels are crafted using a high-temperature, high-pressure process, featuring a double-hardened acrylic polyurethane resin coating that ensures long-lasting protection against the elements. The versatility of Fundermax panels, with a range of designs including plain colors, wood grains, and stone decors, breaks the monotony of traditional facade cladding, making them a popular choice for discerning architecture.

With a network of over 50 business partners across India, FIPL delivers pragmatic solutions that help clients achieve excellence. The company's affiliation with international corporates allows for consistent international benchmarking and the integration of global best practices into its business processes. Whether it's a new project or a renovation, Fundermax stands as a pioneer in the field, providing innovative, cost-effective, and superior quality solutions for diverse architectural needs.

Product Details: Turbo Oxy Jet Aerator, Aspirator, Jet Aerators

Company Profile: We appreciate your interest in our Jet Aerator product range and extend our heartfelt gratitude for considering Make in India products from MSME units like us. At Euro Detox , we are dedicated to delivering top-tier product quality, unparalleled performance, and unmatched efficiency, all proudly made right here in India. Turbo Oxy Jet Aerators are absolutely indispensable, an absolute lifeline, in fact, the veritable heartbeat of your ETP and STP plants, which they would be utterly lifeless and devoid of functionality! IMG-20230905-WA0008.jpg Allow us to provide you with a snapshot of our Turbo Oxy Jet Aeration System, a cutting-edge fine bubble technology crafted to meet EPA standards: 1) Higher Oxygen Transfer: Achieve exceptional oxygen transfer rates of 1.8Kg per Kw-hr or more, thanks to our fine bubble aeration technology of 2 to 2.2mm or less as defined by EPA, resulting in extended oxygen hang-out time. 2) Best Mixing Ability: Our unique design features a longer propeller, much longer than standard high speed aerators because of the low speed motors. (Marine Power Mix), enables effective mixing at greater depths, ensuring superior oxygen dispersion and enhanced wastewater treatment efficiency. 3) Energy Efficiency: Experience the benefits of higher oxygen transfer and superior mixing, which translates into reduced power consumption. This not only leads to cost savings but also maximizes your return on investment. 4) Address BNR Regulations: Our system operates in dual modes - mixing only and mixing cum aeration. You have the flexibility to choose the mode that best suits your pond's.

Company Profile: With more than two and a half decades of expertise in process heating, Integro has established itself as a trusted name in designing and manufacturing advanced industrial heating systems. Our commitment to innovation, efficiency, and sustainability has enabled us to deliver cutting-edge solutions across various industries. One of our flagship product lines, the FastEvap Series Evaporators, is specifically designed for Minimum to Zero Liquid Discharge (ZLD) applications. These evaporators provide a highly efficient and cost-effective solution for industries dealing with effluent treatment plant (ETP) discharges and reverse osmosis (RO) reject water management. Our FastEvap Series offers a wide range of

capacities, from 20 liters per hour to 750 liters per hour, with a single-unit capacity of up to 15 KLD. These units are successfully operating in diverse industrial sectors, consistently delivering the desired results in wastewater management. Electrical, Gas, steam and thermic fluid operated heating systems are designed for maximum efficiency and trouble free operation. Key Features & Technical Advantages of FastEvap Evaporators • High Thermal Efficiency: Optimized heat transfer technology ensures maximum evaporation rates with minimal energy consumption. • Compact & Modular Design: Space-efficient and scalable, allowing easy integration into existing treatment plants. • Corrosion-Resistant Materials: Built with high-grade stainless steel and specialized coatings to withstand harsh effluents. • Advanced Automation & Control: PLC-based automation with real-time monitoring and control for operational efficiency. • Low Maintenance & High Reliability: Designed for long service life with minimal operational downtime. • Eco-Friendly & Sustainable: Facilitates water recovery and minimizes liquid

Product Details: Vidyam provides a comprehensive suite of AI-powered solutions designed to revolutionize surveillance, security, and operational efficiency. Our advanced technologies leverage computer vision, automation, and real-time data analytics to enhance workplace safety, streamline processes, and improve decision-making.

- Surveillance & Security - Fire & smoke detection, restricted area monitoring, mobile phone usage detection, and workforce productivity optimization.
- Smart Factory Automation - AI-enabled computer vision, AGVs, and IoT-driven sensor analysis for real-time insights and efficiency.
- Autonomous Robotics - Jetbot security robots and AI-powered drones for automated monitoring and smart tracking.

Company Profile: DataFlakes is a cutting-edge AI-driven technology company dedicated to transforming industries through automation, smart surveillance, and operational efficiency. Leveraging advanced AI, computer vision, and real-time data analytics, we develop innovative solutions that enhance safety, productivity, and decision-making across various sectors.

- AI-Powered Surveillance & Security - Intelligent monitoring systems that detect fire & smoke hazards, restricted area access, mobile phone usage, and workforce activity to ensure a safer and more efficient workplace.
- Smart Factory Optimization - AI-driven computer vision and IoT solutions that analyze factory operations in real-time, identify inefficiencies, and recommend improvements for seamless automation.
- Autonomous Robotics & Automation - Deploying Automated Guided Vehicles (AGVs), Jetbot security robots, and AI-powered drones to optimize material transport, surveillance, and security patrols.

At Vidyam, we empower businesses with next-generation AI solutions, enabling them to achieve greater efficiency, enhanced security, and data-driven decision-making for a smarter future

NEW GENERATION WAREHOUSE MANAGEMENT SOLUTION

MODERN • EFFICIENT • COST EFFECTIVE

sourav@pipra.solutions

(+91) 7439403812

<https://www.pipra.solutions/>

Challenges in Traditional Warehouse Management System

- **Lack of Real-time Visibility** – Manual tracking and data entry lead to inventory inaccuracies and delays.
- **Inefficient Order Fulfillment** – Picking and packing errors slow down order processing and increase mis-shipments.
- **Poor Space Utilization** – Inefficient warehouse layouts result in wasted storage space and higher operational costs.
- **Limited Integration with Modern Technologies** – Inability to integrate with IoT, RFID, or automation restricts efficiency and tracking capabilities.
- **High Labor Dependency** – Heavy reliance on manual labor increases costs and reduces overall productivity.

Introducing WarePro

- **Operational Efficiency** – Unlock seamless warehouse operations with our WMS, ensuring streamlined workflows, enhanced productivity, and maximized profitability.
- **Complete Traceability** – Gain full visibility into your supply chain with two-way traceability, tracking every step from inbound to outbound for compliance and operational confidence.
- **Environment Monitoring** – Maintain optimal storage conditions with real-time environment monitoring, ensuring product quality, regulatory adherence, and improved warehouse efficiency.

Key Benefits

- End-to-End Warehouse Management Solution
- Real-time Data Analytics & Insights
- IoT & Automation Integration
- Mobile Accessibility & Remote Management
- Integration with Emerging Technologies
- Customization & Scalability
- AI Based Smart Put away
- AI Based Speed Up Data Capture
- AI Camera based Pilferage Protection

Miluz Lara

The smart choice for
modern buildings and homes

Ideal for Mivan and modern construction methods

The SCHUNK logo is located in the top right corner of the image. It consists of the word "SCHUNK" in a bold, white, sans-serif font, followed by a blue circular icon containing a white stylized 'S' shape. The logo is set against a dark blue rounded rectangular background.

SCHUNK

The background of the advertisement is a blue-toned scene depicting a life science laboratory. In the foreground, there is a realistic 3D rendering of a prosthetic hand with a metallic spherical grip, resting on a dark surface. Next to it are a small glass vial with a white stopper, a syringe, and two blister packs of white pills. In the background, there are faint, glowing wireframe outlines of a robotic gripper and a multi-well plate, suggesting automation in a lab setting.

REVOLUTIONIZE STEELMAKING WITH OUR BOF SOLUTIONS!

Complete refractory material, engineering, and service solutions to optimize your BOF operations.

DESIGN & BUILD SERVICE

Our dedicated teams design and build all its BOFs to meet the steelmakers' exact operational requirements.

BRICKS & TAPHOLES OFFERING

Our design teams offer a complete solution for BOF brick lining, tapholes, and repair products.

REPAIR MIXES OFFERING

We provide solutions that allow our customers for continuous performance improvement (concrete development case) (upto 35% increase in life).

We combine installation technologies, tailored products to fit customer-specific purposes and plants, along with design and testing services to deliver real customer solutions.

For details, contact
vesuviussales.india@vesuvius.com

LASER SOLUTIONS

Our patent pending, most advanced and fastest Laser System - ANTERIS® 360 measures in one minute of BOF time

ROBOTIC GUNNING SOLUTIONS

Our Advanced Robotic Gunning allows an increase in productivity with the highest safety and quality standards (upto 200kg/min).
